Total Board Recall	Right created by statute & augmented by contract.	Recall triggered pursuant to procedure specified in bylaws/contract.	VIa Contract	Right created by statute & augmented by contract	Recall triggered pursuant to procedure specified in bylaws/contract.	Enforced via contract,intra-ICANN judiciary, IRP, or by a member lawsuit on behalf of the corporation (as created by statute).	
	"This mechanism has high viability using contractual agreements to allow enforcement of provisions of the bylaws. Under either designation or membership, the designator(s) and member(s) select directors. Except for very specific circumstances, those same directors may not be removed without the consent of the appointing designator or electing member group. Therefore, if the entire board is to be removed at once, every designator or every member, as applicable, must agree by contract among or by themselves or ICANN or a 3rd-party (such as community council) to remove the director it selected if and when the community has voted to recall the board (however this process is defined and structured by contract)." p. 57 April 10 legal memo - Template WP1-7A

2. Individual Board Recall	Right created by statute.	Recall triggered pursuant to procedure specified in bylaws (and possibly internal-designator process).	[Question: What recourse would a designator have if ICANN refused to recognize the removal of a director by a designator?]	Right created by statute.		Enforced via intra-ICANN judiciary, IRP, or by a member lawsuit on behalf of the corporation (as created by statute)	
	There are two types of director removal in California. One is removal "for cause" and one is "without cause". A board can actually remove ANY director, regardless of how appointed, "for cause", which are fairly narrow reasons (felony, etc.) It is the "without cause" (for any reason) removals that only members/designators, respectively, can do. 	"For non-member 3rd-parties such as designators, corporate law provides that they may be given the right to consent to certain or all amendments to the articles of incorporation or bylaws. It should also be possible to give them special approval or veto rights in the bylaws over other board actions, either as a matter of corporate law, or through contractual arrangements." p. 9 March 27 legal memo of A&C						
	"Regardless of whether ICANN has members, the CA nonprofit corp law specifically allows bylaws to state that a specified person(s) can be given the power to approve their amendment. Therefore, the bylaws could give the power to block any changes to the bylaws to certain community representatives, either individuals (such as by office or position) or entities. Note that if desired, the power can be given to multiple persons simultaneously, so that all would have to approve the bylaw amendment for it to take effect." p. 4 of April 10 Legal Memo - Template WP-1A
