

## Latin GP – Reminder and Notes from different meetings during ICAN66

1. Next telephone conference is scheduled for November the 14th, 16:00 UTC
2. Latin GP will get from IP until November the 15th corrections on wording, comments and suggestions incorporated in the last Report.
3. All further development of the Report should start with this document.
4. Document should be kept in .docx MS Word Format, to avoid further disturbances in document formatting.
5. Every member will put comments in his/her copy of the Report, Dennis has information that all comments could be collected in one word document which could be used for further work
6. Sarmad promised to help us with document formatting, so Bill, who has volunteered, need not to bother himself with formatting of the document.
7. Bill has to focus on production of document for In-script Visual Variants analysis. If I am wrong, Bill, please, correct me.
8. Latin GP should focus on substance of the report:
  - a. Comments on the report gotten before ICANN66
  - b. Talking points for Joint meeting of Armenian, Cyrillic, Greek, Latin GP. Document shall be scanned and provided for all members, before next conference call. (Mirjana)
  - c. Comparison between proposed and imposed variant mapping. Document shall be scanned and provided for all members, before next conference call. (Mirjana)
  - d. Sharp s should get detailed explanation. We got the suggestion (Edmon Chung) to avoid in this explanation to mention IDNA2003 problem and to focus on the other reasons.
  - e. Variant Dotless i and i to be better explained
  - f. IP recommendation is that we should not discuss any more influence of writing style in discussion of in-script variants
  - g. New interim unofficial report should be submitted to IP at the end of November, second unofficial version should be submitted at the end of December, and after F2F meeting at the end of January, official version should be submitted to IP. We need to finish Report ASAP, because it is the question how this project will be financed in the next fiscal year.
  - h. Before submitting XML to IP it should be carefully checked
  - i. It is necessary to provide test label data set for the Final Report
  - j. Focus on the obvious cases
  - k. Focus on the diacritic supported font for staking analysis e.g. lucida console font
9. All the other things which should be finished before sending Final Report
  - a. It is necessary to provide test label data set for the Final Report
  - b. Visual variant analysis
    - i. Visual cases spread sheet – prepared by Bill

    - ii. Trello homework allocated by Meikal - Allocation of In-script variant analysis homework
  - c. How to proceed with [Stacking with combining diacritics](#)
