Meeting Notes

The GP discussed the following agenda items:

1. **Minute from F2F meeting in Brussels.** Referring to the draft at https://docs.google.com/document/d/13KIVQIkHYc6_ib1ZDSbxRcLVISHnhAVvc99ZrGwOxTO/edit, the GP discussed the following comments:

Comment 1: It was agreed to rephrase the definition of in-script and cross-script variants to reflect the “interchangeable” instead of “same meaning” as the “same meaning” is only applicable for Hans scripts.

Comment 2: The GP acknowledged that there is a case, suggested by the IP, that needs a special analysis. In Turkish, U+0131 LATIN SMALL LETTER DOTLESS I is mapping to the U+0049 LATIN CAPITAL LETTER I, while most of the languages mapping the U+0069 LATIN SMALL LETTER I.

Comment 3: It was agreed to add samples in the LGR proposal which are out of A-Z(a-z) to clarify the coverage of the work.

2. **Status of the Repertoire WG.** The GP reviewed code points table at https://docs.google.com/document/d/1Usd8zv_5TJ-cJaNZ2lprf-uVIRVan8wZZlkqFGvPBq8/edit. It was discussed that while 0069+0331 cannot be displayed in .docx and .pdf format, as precomposed format is not available in Unicode, it might be the reason for excluding the code point sequence. The GP agreed to have the final round of repertoire revision and it should be finished by 22 February 2018. The GP was informed that the code point table will be re-order by code point before putting the reference.
3. **Status of the Variant WG.** It was agreed to revise the text in Principles for variants as discussed during the F2F meeting.
4. **Status of the Drafting WG.** The draft proposal will be filled in after the completion of the code point repertoire, in a few weeks.
5. **Preparation for ICANN 61.** Mats will be presenting the Latin GP update at ICANN 61. The presentation will be submitted by 19 January 2018.
