

Latin Generation Panel (GP) Meeting

Notes from the meeting on 22 August 2019

Meeting Attendees (in alphabetical order)

GP members:

1. Bill Jouris
2. Dennis Tan
3. Hazem Hezzah
4. Meikal Mumin
5. Mirjana Tasić

Staff:

6. Sarmad Hussain

Meeting Notes

1. The GP continued discussing the “Sharp S (00DF) vs SS” using the discussion paper [Appendix: IDNA Compatibility: Latin Small Letter Sharp S \(ß\) U+00DF](#), the slide [IDNA 2003 Compatibility Issues - Sharp S](#), and the exchanges on the mailing list.
2. At the beginning of the discussion, the definitions of the Misconnection and Failure of service are as follow:

Failure of service. The user intends to navigate to “example.faß” but the application sends the user to “example.fass” which doesn’t exist, because the domain name is not registered or is blocked or withheld.

Misconnection. The user intends to navigate to “example.faß” but the browser returns “example.fass” which is controlled by a different registrant.
3. It was agreed that “Misconnection” should be separated into two cases;
 - (1) ß is in the repertoire. The user intends to navigate to “example.faß” but the IDNA2003-compatible browser returns “example.fass”.
 - (2) ß is not in the repertoire. The user intends to navigate to “example.faß” but the IDNA2003-compatible browser returns “example.fass”.
4. Next meeting is 29 August 2019 at 16:00 UTC

Action Items

S. No.	Action Items	Owner
1	<i>Expand the cases in the slide ‘IDNA 2003 Compatibility Issues - Sharp S’ to cover two possible cases of ‘Misconnection’.</i>	DT, MM
