Notes from the meeting on 30 April 2020

Meeting Attendees (in alphabetical order)
> GP members:
>> 1. Bill Jouris
>> 2. Dennis Tan
>> 3. Hazem Hessah
>> 4. Mats Dufberg
>> 5. Meikal Mumin
>> 6. Michael Bouland
>> 7. Mirjana Tasic
> Staff:
>> 8. Pitinan Kooarmornpatana

Meeting Notes

The GP members discussed the Circumflex and Acute vs Tilde case and was agreed that these are not variants. They will be considered again when creating the confusable table.

The GP then reviewed the Generic Glyph data sheet with the updated data for comparison and their correspondent examples. The GP agreed to incorporate the decisions in the data sheet into the proposal. Bill volunteered to update the proposal.

The GP discussed the Underlying Analysis topic. It was agreed that, based on the data, the underlining concept should not affect the variant analysis. The GP would write up a response to the IP separately and see if the IP request it to be included in the proposal.

The GP members were informed of the latest version of the proposal which was organized in a set of file in One Drive shared folder. The GP members were requested to only make any updates to these latest version in the drive. The status tracker sheet was shown to the GP as well. It would help tracking the decision made and the editing progress.

It was discussed that the edit right should only be limited to the assigned members. The members in this meeting were requested to share a Microsoft Account to Pitinan. She will work with Hazem to manage the access right to the documents.

Next meeting: Thursday 7 May 2020 16:00UTC.

Action Items

S. No.	Action Items	Owner
1	*Incorporate the conclusion from the Generic Glyph data sheet into the proposal*	BJ
2	*Share a Microsoft account to Pitinan to manage the access rights*	ALL
