

Latin Generation Panel (GP) Meeting

Notes from the meeting on 21 May 2020

Meeting Attendees (in alphabetical order)

GP members:

1. Bill Jouris
2. Dennis Tan
3. Hazem Hessah
4. Mats Dufberg
5. Mirjana Tasic

Staff:

6. Pitinan Kooarmornpatana
7. Sarmad Hussain

Meeting Notes

The GP members discussed the test result of the Case folding Latin Small Letter Dotless I [document](#). The test results showed that the behavior of down-casing with locale tr_TR was the same as the en_ locale. The GP agreed that further test with tr_TR on Turkish machine would be conducted to confirm the result.

The GP revisited **in-script Variant Analysis sheet**. The GP confirmed the decisions made during the F2F meeting.

As the consonant of n, c, and z Dot Above and Acute were made variants, the question was raised whether Latin Small Letter I (i,0069) and Latin Small Letter I with Acute (í, 00ED) should be variants. The GP would discuss this in the next meeting.

The GP reviewed the **Appendix D.5.2** and its relevant **Appendix E**. It was agreed that as the underlining was no longer relevant, therefore the transitivity mapping for SS with below diacritic with Sharp S will be removed.

The GP agreed to include **Appendix 6** Underlining Evaluation Process in the proposal and agreed that the **section 6.6.1** in the main document required a considerate piece of text to explain the issue, explain the method, explain the data, and finally explain why the GP reached the conclusion. An ad hoc document will be started for drafting this content.

Next meeting: Thursday 28 May 2020 16:00UTC.

Action Items

S. No.	Action Items	Owner
1	Conduct the dotless I test case in a locale tr_TR machine	PK
2	Start the Google Document for drafting the underlining analysis text	MD
