Meeting Notes

The GP members revisited the previous decisions made for two cases:

1. Latin Small Letter O with Grave (ò, 00F2) vs. Latin Small Letter O with Hook Above (ỏ, 1ECF).
The decision from January 2020 F2F meeting was *no-variants*. However, Mirjana re-evaluated and updated the mark from 3 to 2 for Courier Font. *The GP then concluded that these are variant code points.*
2. Latin Small Letter U with Horn and Grave (ừ, 1EEB) vs. Latin Small Letter U with Horn and Hook Above (ử, 1EED). The GP discussed and agreed that as these fall into the Vietnamese language case. The GP concluded they are not variant code points. However, these code points should be included in the confusable list. It was discussed whether they are other languages than Vietnamese which have the double diacritics above, if there are, the GP should check those cases as well.

The GP then continued the discussion of Latin Small Letter I (i,0069) and Latin Small Letter Dotless I (ı,0131). The example cases with different locals were discussed. The GP agreed that the Turkish users' input is essential for the decision making. The discussion was postponed till the GP received input from the Turkish users.

Next meeting: Thursday 18 June 2020 16:00UTC.
