Meeting Notes

The GP members reviewed and finalized the Latin LGR proposal version 6.

The GP then continued discussing the XML LGR proposal. The "Variant Disposition" text was reviewed and agreed as follow: "Dispositions of code points in all variant sets are blocked, with the exception of the following variant sets: Latin Small Letter Sharp S variant set and Latin Small Letter Dotless I variant set."

The GP agreed that after editing above, the GP allowed ICANN staff to share the version 6 package to the Integration Panel (IP).

The test label file discussion was resumed. The GP was informed that there was no fixed format for the test file. The GP agreed that ICANN staff prepared the test data file as per the finalized LGR proposal for the GP to review.

The GP decided to cancel the next one or two meetings while waiting for the IP Feedback. The date of the next meeting will be shared when it became available.

Next meeting: TBD.
