### Meeting Notes:

1. The GP chair reiterated the context and constraints for the RZ-LGR work. It is for the Top-Level Domain, upper cases and numerals are not in the scope. The code points not in the MSR such as Middle dot cannot be included in the RZ-LGR. The GP has discussed the underlining issues can concluded that the URL spoofing issue cannot be resolved by the RZ-LGR.
2. The GP reviewed the comments received. Comments from the Japanese GP, Registries Stakeholder Group (RySG), and Khmer GP are in support and no further action required.
3. The comment from Igor Mkrtumyan (Armenian GP chair) was discussed. The variant pairs raised in the comment aligned with the Latin RZ-LGR proposal. Michael volunteered to draft the response for GP's consideration.
4. It was discussed that comment from NARALO regarding the Appendix E will be discussed after the repertoire discussion.
5. There were three comments regarding the repertoire section. They were submitted from Bill Jouris, Core Association, and ALAC. The comments recommend the Latin GP to

include more languages which use the Latin script for repertoire analysis and to consider inclusion of the Middle dot character. Dennis volunteered to draft the response for GP's consideration.
