### Meeting Notes

The GP discussed the following agenda items:

- 1. Preparation for ICANN60.** The GP planned for a dedicated 75 minutes session for Latin GP on Tuesday, 31 October at 15:15 – 16:45. It was agreed to spend 30 minutes on the Latin GP presentation and open the rest of the time for feedback from the community and discussion with the IP.

The Latin GP presentation would include three topics:

- **Introduction:** Panel and its member introduction, showing the diversity of language, geographic and background (Mirjana and the GP members)
- **Repertoire:** Overview, principles, challenges and feedback on Public Comment (Mats and the Repertoire WG)
- **Variants:** Overview, principles, challenges and feedback on Public Comment (Dennis and Variants WG)

The GP was informed that Unicode and DNS/IDNA experts from the IP will be at the meeting. The expected audience beside the GP members and the IP members includes community members who interested to know more about Latin GP's work, including technical and linguistic aspects. Both groups are equally interested in the GP being inclusive in the process and open for feedback from the larger script community to make sure the output is stable and as broad as possible in the framework of RZ-LGR

The presentation should be submitted by 6 October. The GP agreed to share the slides over email and finalize them during the next Latin GP call on 3 October.

- 2. Response to question from ccNSO.** The GP discussed possible response options. Mats volunteered to draft an answer via email for the GP to finalize.

3. **Retiring an old working document.** It was agreed that the owner of the document stop sharing the document on Google Drive to prevent confusion.
