Latin Generation Panel (GP) Meeting
Notes from the meeting on 18 July 2019

Meeting Attendees (in alphabetical order)
> GP members:
>> 1. Dennis Tan
>> 2. Hazem Hezzah
>> 3. Mats Dufberg
>> 4. Meikal Mumin
>> 5. Micheal Boulard
>> 6. Mirjana Tasić
>
> Staff:
>> 7. Pitinan Kooarmornpatana

Meeting Notes

The GP discussed "Sharp S (00DF) vs SS" using the discussion paper: Appendix: IDNA Compatibility: Latin Small Letter Sharp S (ß) U+00DF and agreed on the followings.

1. The Weighted Decision Matrix (WDM) was used to select one of four possible options:
    (1) Defer inclusion (or Exclude) of ß (wording will be finalized later),
    (2) Inclusion with Variant Relationship ß → ss: Allocatable,
    (3) Inclusion with Variant Relationship ß → ss: Blocked, and
    (4) Inclusion with no Variant Relationship.

    The ss → ß mapping for option (2) and (3) will also be described in the report even though it is not in the WDM table.

2. The attributes for consideration are:
    (25%) Prevent denial of service – the case which the user cannot reach intended address
    (30%) Prevent misconnection – the case which the user reaches the unintended address
    (15%) Availability at the top level – the linguistic requirement of the script user community
    (30%) Usability – the predictable label resolution

3. The rating will be discussed in the next meeting. Next meeting is 25 July 2019 at 16:00 UTC

Action Items

S. No.	Action Items	Owner
1	*Prepare to discuss the WDM table in the next meeting*	ALL
2	*Conduct the variant analysis using Wordmark.it as assigned in the meeting note 4 July 2019.*	HH, BJ, MM, MD, MT
