matthew shears:hi all

Aarti Bhavana:Hi All

matthew shears:thanks!

matthew shears:no that was good thanks

Tatiana Tropina:AH :D sorry to many achronyms :)

stefania milan:sorry for joining with some delay

stefania milan:connection issue

Maryam Bakoshi:Welcome Stefania

Narine Khachatryan:Hello all, sorry I was disconnected

Marilia Maciel:Matt, maybe we should reinforce Niels's message to BB at al?

stefania milan 2:keep being thrown out :(

Avri Doria:So perhaps a few of the comments that go in should mention how much this is in the global public interest.

matthew shears:@ Marilia - yes good thought

matthew shears:@ Avri - absolutely - great point

Tatiana Tropina:@Avri - great, absolutely

stefania milan 2:thanks for the suggestion Avri. will follow up as i send in my comment later today

Avri Doria:i am working on that today / tomorrow.

nigel hickson:Good afternoon; really good to have responses to CCWG proposal and on other parts as well.

matthew shears:seems not

Tatiana Tropina::) we need to wait for the outcome

Tatiana Tropina:all, it seems I have AC room problem so please disregard the hand, trying to reboot

matthew shears:I am wondering if this WP needs to also keep an eye on the evolving discussions that about to occur on "public interest" and its definition?

Aarti Bhavana:There is no definition for global public interest at present, right?

stefania milan 2:me!

matthew shears:@ aarti - yes, despite it being used by teh board - and will be used by the board to reject the HR language in the ccwg proposal if necessary

Gangesh Varma:@ Matt- Wasn't there some report on the 'global public interest' expected from ICANN? I believe Nora was leading this effort within ICANN

nigel hickson:Sorry on "silent" but perhaps worth flagging agreement on COE IG Strategy which touches on many aspects of HR;

stefania milan:@aarti there was a nice workshop on global public interest in IG and icann in particular at the last IGF. very useful to get an idea of how blurred the notion is and how flexibly it is used/invoked

matthew shears:@ varma - yes, but it seems a bit of a black box right now on where things are on PI

Aarti Bhavana:Thanks Stefania! I'll look for a recording

Tatiana Tropina:it is a process issue

Avri Doria:But basically, Board is declaring that ICANN does not beleive Human Rights are in the Global Public Interest. Great Headline.

rafik:@gangesh that ICANN division of public responsbaility, it is supposed to publish research on PI next week

Tatiana Tropina:@Avri, I do like this headline, yes.

Gangesh Varma:@Rafik: thanks for the update. Will look forward to it

Tatiana Tropina:and without bylaw language!

stefania milan:@niels do you have a link for this board comments to hr?

matthew shears:process should be led by the community not the board

stefania milan:@niels thanks :)

nigel hickson:@Niels - this is separate from the "Recomendatiion" earlier in year; it is the new Interent Governance Strategy, agreed in principle last week; best;

rafik:@nigel yes I skimmed it

Tatiana Tropina:thanks Nigel it is a good tip - worth to have a look.

Avri Doria:Human rights are the core of the global public interest.

matthew shears:yep!

Tatiana Tropina:I don't hear Niels anymore

Marilia Maciel:Lost audio

Tatiana Tropina::-/

stefania milan:same here

rafik:yes lost niels

matthew shears:bali power out

Tatiana Tropina:I was surprised he was loud and clear for long :)

Avri Doria:GPI is a side concern?

Niels ten Oever:no, csr is often treated as such.

rafik:CoE

rafik:sorry for the question, how much areas thie working party want to cover? PI sound overstratching, it is complimentary but should be in another space

matthew shears:I think that there will be a number of us fololowing the PI discussion so we can report back on it as it evolves

matthew shears:agree Tatiana - many of us will be following both

Niels ten Oever:+1

rafik:@matt yes but my point was that this working group shouldnt focus on that, other group with interested people would make it

matthew shears:sure

Sara Bockey:sorry...I need to drop. thank you all.

Avri Doria:people can also send in supplemental comments about GPI and HR

matthew shears:thanks Niels and great holidays to all

Marilia Maciel:Thank you all! Happy holidays!

Avri Doria:HR should be a gating factor on the transition

Tatiana Tropina:Thanks Niels!

nigel hickson:thanks

Aarti Bhavana:Happy holiday all. bye.

Tatiana Tropina:bye everyone! happy holidays! :)

Alexandra Kulikova:happy holidays everyone!

Maryam Bakoshi:Bye all
