Anne Aikman-Scalese (IPC): <COMMENT> Community applications should be made a higher priority in the next round per the Council of Europe recommendation. They should be given a priority round and there should be lots of flexibility on background checks if the standard of being a Community applicant is met - although we should check for commercial backers who may only have a financial interest and not a community interest. Also the Community should allocate funds to

Community Applicants from the $500m in Auction Proceeds.
