

# Policy Implementation Update

Caitlin Tubergen | GNSO Working Session | 21 June 2015

- **UDRP Locking**
- **Additional Whois Information Policy**
- **Change of Registrant Policy (IRTP C)**
- **Thick Whois**
- **IGO/INGO**
- **IRTP D**
- **Privacy/Proxy Accreditation**

# GDD Policy Implementation Update

## **UDRP Locking**

- Intended to help prevent cyberflight--
  - Rr must lock registrar & registration data w/in 2 business days of notice from UDRP provider
  - Eliminates Complainants' req't to serve Respondent
- Becomes Effective 31 July 2015

## **Additional Whois Information Policy (“AWIP”)**

(IRTP B Rec 8 + IRTP C Rec 3)

- Adds new Whois output requirements for Rrs & Rys
  - Use only EPP status codes
  - Provide link to definitions @ [icann.org](http://icann.org)
  - Requires Rys to publish GURIDs (Registrars' IANA IDs)
- Effective 31 January 2016
  - Many contracted parties are voluntarily complying early

# GDD Policy Implementation Update

## **Change of Registrant Policy** (IRTP C Recs 1 & 2)

- Intended to help prevent domain hijacking
  - Rrs must obtain consent from New and Prior Rts during Change of Rt process
  - Inter-registrar transfers blocked for 60 days following change to Rt (unless Rt opted out of the lock)
  - Form of Authorization to expire after 60 days
- Staff working with IRT to consider public comments received – a few more weeks of discussion likely required before rules finalized

## **Thick Whois**

- Will require all registries to provide consistent, “thick” Whois output; called for review of potential legal issues
- IRT meeting Wed, 24 June 17:00 (Retiro B) to discuss legal issues memo & implications of finalization of RDAP protocol

# GDD Policy Implementation Update

## **IGO/INGO**

- Call for volunteers for Implementation Review Team to go out shortly after ICANN53

## **IRTP D**

- Amendments to Transfer Dispute Resolution Policy to, *inter alia*, enhance reporting by providers & ICANN, extend the “statute of limitations” to 12 months, eliminate the registry as a forum for dispute resolution
- Recommended formation of GNSO Council-convened panel to collect data & review the efficacy of the series of amendments to the IRTP

## **Privacy / Proxy Accreditation**

- GDD staff monitoring progress of PPSAI WG and feeding input back to group in coordination with Policy staff
