Report

Second edition of CGI.br Internet Governance School (<http://egi.nic.br/>) held in São Paulo. The event gathered 34 speakers including a remote presentation from Fadi Chehade. 30 participants joined as students, selected for scholarship through a multistakeholder participation format.

Observations

Leading activity in Brazil, very well organized by CGI.br.

Issues For Follow-Up

The selection process is really valuable and the school gathers many potential community members to be supported in fellowship and NextGen activities.
