

WHOIS Recommendation 2 Implementation

Single WHOIS Policy

30 June 2015

Implementation 2 Timeline

Status of Deliverables

	Responsible	Due Date
Single Page contains links to all WHOIS related agreements and consensus policies. Overall “easy to read” Primer published in January 2014 describes the WHOIS service.	Staff	✓
RT recommended a single WHOIS policy, which was NOT implemented based on board direction captured in the Action Plan , “Board Action - The Board directs the CEO to create and maintain a single public source that compiles current gTLD WHOIS requirements for gTLD registries, registrars and registrants (including consensus policies and contractual conditions.... These presently available conditions and policies should be publicly available from one source.”	Staff	✓

Recommendation 2 Implementation Description

The ICANN Board should oversee the creation of a single WHOIS policy document, and reference it in subsequent versions of agreements with Contracted Parties. In doing so, ICANN should clearly document the current gTLD WHOIS policy as set out in the gTLD Registry and Registrar contracts and GNSO Consensus Policies and Procedure.

- ✓ Complete
- Planned/In Process
- Behind schedule, expected to recover within original plan
- Behind schedule, original plan to be adjusted

WHOIS Recommendation 2 Implementation

Single WHOIS Policy

30 June 2015
