The NARALO GA was a celebration of NARALO At Large Structures who came together during a colocated event at ARIN 39. The Face to Face meeting aimed to energize the community to become more active in outreach and engagement, ICANN policy comments and involvement with Working Group 2 working groups.

The collective efforts of staff, volunteers, and ALS members are committed to seeing NARALO become more active through the creation of a proactive strategic NARALO CROPP FY 18 plan, Webinars, and Onboarding sessions on working group and policy issues.

Thank you all for being there!

The NASIG coordination group (2018nasig@gmail.com) is developing the first North American School of Internet Governance (NASIG) and has prepared this survey to help identify and prioritize Internet governance (IG) topics most relevant to the region. This survey will be available until midnight on May 14, 2017.

Survey

Next Century Cities Hosts Digital Southwest- A Regional Broadband Summit in Mesa, AZ

Matthew Rantanen, Director of Technology, South California Tribal Chairmen's Association, and board member of Native Public Media, Guest Speaker at Next Century Cities' Digital Southwest Conference, in Mesa AZ.

Matthew was invited as a subject matter expert on wireless broadband networking in the native community, to join the panel on the main stage Digital Southwest; Broadband Infrastructure Needs. Matthew often speaks at conferences, promoting and supporting the technical needs of the tribal communities of the USA.

The archived Panels can be found here:

Apply now through 5:00 PM ET on Wednesday, 12 July 2017

April's highlights for SFBay Area ISOC Chapter began with the ARIN Conference & the NARALO GA meeting in New Orleans. The Chapter was represented by Susannah Gray, President & Chair (ARIN39 Fellow) and Leah Symekher, Advisor/Consultant to the Board.
The Chapter, held its first event of the year on April 10th which introduced new Board members and the Chairs of two of the three newly created Chapter Working Groups (http://www.sfbayisoc.org/working-groups/).

The Chairs gave an overview of their goals for their respective WGs and there was a lively Q&A session. The event was well attended by the community and there was much interest in the chapter’s work and ongoing projects. Please see the event report here (http://www.sfbayisoc.org/2017/04/26/wgs-open-closed-doors/). Live streams of the event can be found here (http://www.sfbayisoc.org/2017/04/20/chapter-event-meet-the-board-working-group-chairs/).

Our 2017 project, "Bridging California's Rural/Urban Digital Divide with Mobile Broadband" is progressing well with Phase one of the project completed. Visit our website for the current update http://www.sfbayisoc.org/projects-overview/current-and-future-projects/rural-broadband-project/.

What is IFAN and why we care, read our blog published in CircleID: http://www.circleid.com/posts/20170421_internet_for_all_now_legislation_that_needs_your_support

The Chapter is also participating in Sudomesh, represented by Eve Edelson, Board member. Volunteers are working on a mesh network for Oakland, California (peoplesopen.net). A recent event was an introductory workshop for the community on router configuration.
"Strategies to identify fake news"
Roundtable event: ISOC - Puerto Rico

Audience will learn about techniques to detect 'fake news'. Searching for news through using various Internet tools has become a great concern to end-user. Internet Literacy and effective use of Internet and Broadband will be explored. 11 May 2017.

This is the first of a series of very informal events created to learn and discuss Internet issues between matter experts and our membership. No streaming will be available.

The North American School of Internet Governance (NASIG) aims to maximize the opportunity for an open and inclusive in-depth capacity building on IG related issues to a group of 40 individuals. The event, to be held in San Juan, Puerto Rico on March 7 - 9, 2018, prior to the ICANN 61 Meeting, will be focusing on the development and application of the shared principles, norms, rules, decision-making procedures and organizations that shape the evolution and use of the Internet.

NASIG is the first school of its kind in the region, with the view of being periodically held at other North American destinations.
