A year coming to a close...

As we all get into the winter season, we would like to extend our best
wishes to all the NARALO community and ICANN staff a safe and enjoyable holiday season.

It's been an exciting year for NARALO with several achievements and milestones. We had our first joint co-located General Assembly in New Orleans. We saw new leaders taking on the reins of NARALO leadership with Eduardo Diaz stepping up as our new Chair and Leah Smekyler as our NOMCOM representative, Dr. John Laprise as our ALAC representative and Glenn McKnight taking on the role of Secretariat.

It's also time to thank Judith Hellerstein for her work as NARALO Secretary.

We would like to welcome Shelly Robinson (ISOC Canada) and Glenn McKnight to the newsletter team.

Enjoy the reading!

National Capital FreeNet, a not-for-profit Internet Service Provider in Ottawa and members of both Telecommunities Canada and Internet Society Canada Chapter, who are current NARALO members, just celebrated its 25th anniversary!

They published a book for the occasion, featuring stories and pictures of the successes, controversies and all the changes that have taken place since 1992. This included hosting the first International Community Networking Conference in 1993 that gave birth to NARALO member Telecommunities Canada, and more recently, launching Digital Access Day to ensure everyone has meaningful access to the internet, meaning they can afford a high quality connection, understand how to use it, and feel safe online.

Support came from other ATLARGE community members including Sebastien Bachollet (Past ICANN board member) and Dr. Oliver Crepin-Leblond, Euralo Chair. Kudos to the volunteers who did a spectacular job.

Purpose: This Public Comment seeks community input on the CCWG-Accountability Work Stream 2 (WS2) draft recommendations on ICANN Staff Accountability.

These draft recommendations were developed by the CCWG-Accountability as required by Annex 12 of the final report of the Cross Community Working Group on Enhancing ICANN Accountability, Work Stream 1 (CCWG-Accountability, WS1). Current Status: The CCWG-Accountability reviewed these draft recommendations at its 11 October 2017 plenary meeting and approved their publication to gather public comments.

Next Steps: Following the public comment period the inputs will be analyzed by the CCWG-Accountability WS2 who will consider amending the recommendations in light of the comments received and will publish a report on the results of the public consultation. If significant changes are required as a result of the public consultation the CCWG-Accountability WS2 may decide to not include these recommendations in its final report given it must complete its work by June 2018. If there are no significant changes required, the CCWG-Accountability WS2 will include these in its final report and forward it to its Chartering Organizations for approval and then to the ICANN Board for consideration and adoption.
