TOGETHER. SHAPING THE FUTURE.

My first year as the Chair of NARALO is going to be an exciting one. Some of the things we hope to accomplish this year with the help of our membership. Firstly we need to revitalize our base in engaging those

ALS's that have been absent from participating in our monthly calls and working groups. Judith and I will be outreaching to these groups and providing informative information sessions in the next couple of months. Secondly, our outreach efforts will strive to reach underrepresented areas especially in our Native

INTERNET SOCIETY OF SAN FRANCISCO in ARIN

American and Canadian communities, South West US and various civil society organizations concerned about Internet issues.

Lastly, our efforts throughout the year in Puerto Rico will lead have Alfredo and Eduardo orchestrating a series of community engagement activities hopefully sanctioned and supported by our North American GSE leading up to our General Assembly in October 2016.
In the near future we will be asking for volunteers for the GA including volunteers to facilitate sessions, sponsorship, social activities and more.

It's my belief that NARALO has the greatest potential to grow and contribute to the ICANN ecosystem building on the great foundation created by previous leaders.
Thank you for your support

Glenn McKnight
