## A year coming to a close...

As we all get into the winter season we would like to extend our best wishes to all the NARALO community and ICANN staff a safe and enjoyable holiday season.

It's been an exciting year for NARALO with a number of achievements and milestones. We had our first joint co-located General Assembly in New Orleans. We saw new leaders taking on the reins of NARALO leadership with Eduardo Diaz stepping up as our new Chair and Leah Smekyler as the NOMCOM Rep, Dr. John Laprise as the ALAC representative and Glenn McKnight taking on the role of Secretariat. It's also time to thank Judith Hellerstein and Garth Bruen for their service

We like to welcome Shelly Robinson and Glenn McKnight to the newsletter team  
Enjoy the reading!

DNS and Women has encouraged the cross community of women at ICANN to enjoy a entertaining networking session since 2009 at ICANN meetings. It has served to provide an opportunity for Women across the community to participate with issues that face women in particular. We invite our membership of NARALO get learn more about the event which normally is a evening reception at the ICANN meetings and occasionally its a breakfast meeting. Over the years over 100 women attend the event and a few men as guests and photographers are invited to participate. To Learn more visit

## Call for Policy Comments

Due date January 5, 2018

Purpose: This Public Comment seeks community input on the **CCWG-Accountability Work Stream 2 (WS2) draft recommendations on ICANN Staff Accountability.**

These draft recommendations were developed by the CCWG-Accountability as required by Annex 12 of the final report of the Cross Community Working Group on Enhancing ICANN Accountability, Work Stream 1 (CCWG-Accountability, WS1).

Current Status: The CCWG-Accountability reviewed these draft recommendations at its 11 October 2017 plenary meeting and approved their publication to gather public comments.

Next Steps: Following the public comment period the inputs will be analyzed by the CCWG-Accountability WS2 who will consider amending the recommendations in light of the comments received and will publish a report on the results of the public consultation. If significant changes are required as a result of the public consultation the CCWG-Accountability WS2 may decide to not include these recommendations in its final report given it must complete its work by June 2018. If there are no significant changes required, the CCWG-Accountability WS2 will include these in its final report and forward it to its Chartering Organizations for approval and then to the ICANN Board for consideration and adoption.
