

ICANN Accountability requires acceptance of FTC Statutes.

For ICANN to be accountable, they must stop supporting CentralNic; and the genuinely "ICANN Accredited" .COM R[r]egistries / R[r]egistrars, who Dilute & Infringe .COM the Global TLD, with CentralNic False Designation / Spurious Mark Country Code .COMs

The United States Justice Department, FBI, ICE or FTC need to ask Francis Gurry of WIPO, why so long ago, he communicated with CentralNic; and concocted a plan to help them evade the ACPA Law: 15 U.S. Code § 1125 - False designations of origin, false descriptions, and dilution forbidden.

Further, ICANN Et Al need to explain their "contributory" conduct, with CentralNic, relative to violations of: 18 U.S. Code § 2320 - Trafficking in counterfeit goods or services need to be addressed
