

WP4

Human Rights

Consensus

- Human rights should be addressed as a WS1 issue.
- Should NOT broaden ICANN's activity or mission.

Refinement

- Proposed Human Rights language for the Bylaws (4 options).
- Already subject to respect HR in Aol.
- Referral to specific documents on HR.
- Verbatim text or already agreed language from existing HR instruments.

Divergence

- Not something to be included in the bylaws;
- Issue for WS2;
- Premature;
- More work to be done.

For Consideration

- Revisit bylaws language and decide on text to be proposed;
- Consider level of support as a WS1 issue;
- Need for more detail;
- Clarify limited mission and scope;
- Collaboration with other community CCWGs;
- Options on suggested text.
