🟩 Planned/In Process
🟨 Behind schedule, expected to recover within original plan
🟥 Behind schedule, original plan to be adjusted

ICANN

SSR Recommendation 13 Implementation
ICANN Areas of Influence as a Coordinator, Collaborator and Facilitator
30 June 2015

Project Status

As part of SOP, ICANN staff contacts all SOs and ACs (via chairs) to encourage identification and publication of a best practices repository page that is responsive to their constituencies. The ccNSO currently publishes SSR-related best practices [information](#) for their members.

ICANN staff engages in a variety of ongoing activities to encourage global use of SSR best practices, as part of SOP (see Recommendation 12).

Activity in this area is ongoing as part of SOP and ICANN builds on its activities annually. In 2015, for example, ICANN anticipates the creation [of a set of resources of best practices](#) for securing collaborative community assets. These resources will help SOs and ACs make informed decisions regarding identity management and data protection. From these, SOs and ACs could set requirements for how community assets should be made secure, stable and resilient.

Implementation Notes

This recommendation is complete.
