Introduction to the ALAC Outreach and Engagement Subcommittee (O&E)
Introduction to the Outreach & Engagement

The ALAC Subcommittee on Outreach and Engagement develops strategies

- to reach out to new potential members of the At-Large Community (Outreach) and
- to engage new and existing members of the At-Large Community (Engagement)

to continue to fulfill At-Large and ALAC’s role in ICANN activities.

This Subcommittee will work with the At-Large Community to ensure such strategies are implemented successfully.

Anyone interested in reaching out to persons to join the At-Large Community and getting existing At-Large Community members more engaged in At-Large activities is welcome to join and participate in this Outreach and Engagement SC by emailing At-Large Staff at staff@atlarge.icann.org
Introduction to the Outreach & Engagement

- Formerly the Outreach SC, a key activity for this committee from 2013 has been to coordinate and manage its efforts related to the Community Regional Outreach Pilot Program (CROPP) for At-Large, in conjunction with the ALAC Subcommittee on Finance and Budget.

- In 2015 at ICANN52, the ALAC voted to change the focus of the Outreach SC to also include engagement, hence the name change to the Outreach and Engagement SC.

- Reconstitution of this subcommittee was done soon after ICANN53 by asking RALOs whose members are interested in outreach and engagement activities for their RALO to be in this SC to better coordinate and collaborate with all of At-Large on Outreach and Engagement.

- The first Outreach and Engagement SC call was held on August 3 2015.

The Outreach and Engagement SC has held 4 meetings since ICANN53.

A key requirement for the Community Regional Outreach Pilot Program (CROPP)-FY16 is the development of an Outreach Strategic Plan for each RALO. Each RALO's Outreach Strategic Plan should explain its FY16 outreach goals and planned expectations so that any selected CROPP activities can be coordinated with the appropriate ICANN Global Stakeholder Engagement teams.

The Outreach and Engagement SC has developed such strategic plans for each RALO:
- AFRALO Outreach Strategic Plan
- APRALO Outreach Strategic Plan
- EURALO Outreach Strategic Plan
- LACRALO Outreach Strategic Plan
- NARALO Outreach Strategic Plan
The RALO Strategic Plans includes:
- identification of key outreach events in the region.
- review/analysis of gaps in ALS regional representation.
- specific, measurable outcomes.

The ALAC Subcommittee on Outreach and Engagement created group calendars at Teamup.com to add and track regional outreach events for possible use by At-Large for the Community Regional Outreach Pilot Program (CROPP) to attend such events. You can view (and subscribe to) the regional outreach events for:

Commented on the ICANN Civil Society engagement in FY16 draft document (https://community.icann.org/x/-5FCAw). Our key points:

- Lack of sustained regular coordination between At-Large & Global Stakeholder Engagement (GSE)

- Often, At-Large members discover by chance about an nearby IG/ICT event GSE is participating in that would have benefited with an At-Large Presence to assist with outreach.

- Suggestions:
  - GSE be added to O & E mailing lists
  - Regular conference calls between the O&E and GSE to review outreach events that both GSE and At-Large can track using the shared calendars.
Work done by Outreach & Engagement SC

- Selected a member from this Outreach and Engagement SC to serve on the At-Large Community Regional Outreach Pilot Program Review Team (CROPP RT) for FY16 (from July 2015 to June 2016).

  The CROPP RT members from this Outreach and Engagement SC are:
  - Daniel Nanghaka (AFRALO)
  - Ali AlMeshal (APRALO)
  - Yuliya Morenets (EURALO)
  - Juan Manuel Rojas (LACRALO)
  - Glenn McKnight (NARALO)

- Developed a flyer for ALAC events at ICANN54 in Dublin

- Preliminary Analysis of the ICANN Fellowship Program for potential membership.
Ongoing Work being done by the O & E

- Begun review of the Redline Version - Beginner's Guide to At-Large Structures (ALSes) update being done by At-Large Staff

- Begun discussion on Ideas for Engagement Strategies

- Work with the At-Large Ad-Hoc New Meeting Strategy Working Party on possible outreach strategies that could take place with the new ICANN Meeting B in 2016 in Panama.

- Collaborate with the At-Large Capacity Building Working Group in order to ensure that future capacity building webinars are coordinated and complimentary to the outreach/engagement strategies.

Implementation of At-Large Outreach Strategies for the 5 RALOs
AFRALO Outreach Strategy

- AFRALO's outreach strategy focuses on getting ALSes from a certain number of territories without ALSes.
- The goal of the strategy is to get ALSes from 3 countries at least.
- Collaborate with the GSE for Capacity Building
  - Event calendar
- AFRALO, in coordination with GSE and ALSes will identify a university or Academic Institutions in two territories in Africa to:
  - seek to get persons and/or organisations at such Universities to be involved in At-Large
  - share and disseminate information about ICANN and ICANN At-Large to the student communities at such Universities. (ISOC Rwanda already conducting university activities)
- Target Non Profit/Civil Society
- Analysis of current participation rate in AFRALO calls and working groups
  - Rejuvenate absentee ALS’s
  - Information Webinar sessions
  - Direct mail and phone calls to ALS’s

AFRALO Outreach Strategy: https://community.icann.org/x/B500Aw
APRALO Outreach Strategy

The APRALO leadership team has identified regional events in 2016 where APRALO members’ involvement can expand our outreach into internet communities.

- Asia IGF meeting 2016.
- Armenian First National IGF, September 7-8, 2016.
- IGF 2015 in Brazil.
- APRICOT 2016.
- CommunicAsia 2016.

Social Media Plan APRALO is committed to using the new ICANN website as well as LinkedIn and Facebook to outreach to potential new ALS’es. We can customize our search to look for internet user groups around the region and have a PDF about APRALO prepared to send to them once they make contact. It would be a cost effective way to reach out to those who indicate an interest in joining via social media.

One of the potential outreach activities may be linking with schools and Universities around Asia Pacific for talks and lectures. Using current connections within the ALS’es to reach out to schools and get someone from APRALO leadership team to be there and make a quick presentation. Some limited funds may be needed for this activity, which will be identified based on the specific case and opportunity.
EURALO Outreach Strategy

- EURALO has concentrated on outreach activities on events like:
  - the annual EuroDIG events all over Europe since 2008 (incl. two EURALO GAs in 2011 and 2012);
  - the annual ICANN Studienkreis meetings in Europe
  - the European Summer School on Internet Governance (EuroSSIG) in Meissen/Germany where several members are involved;
  - some of our members are actively involved in national IGF initiatives (Germany, Switzerland, France, UK and Ukraine);
  - inviting and supporting up to 5 members or potential candidates to attend EuroDIG meetings (Berlin 2014 and Sofia 2015) via CROPP.

- Regular consultations with Jean-Jacques Sahel, ICANN VP Stakeholder Engagement for Europe at ICANN meetings (London, LA, Singapore, Buenos Aires) and EuroDIG events.

- A next opportunity or challenge for coordinated efforts ahead may be re:publica 2016 in early summer in Berlin/Germany what became the biggest conference and fair on Internet politics in Europe with over 7’000 participants -- see: https://re-publica.de/en/about-republica
LACRALO Outreach Strategy

- From our LACRALO Dashboard (http://bit.ly/lacralo-dashboard), there are 13 countries out of 33 countries without At-Large Structures (ALSes). An aim will be to attempt to get 3 new ALSes from three territories without ALSes for FY16.

- We will be maintaining an outreach calendar at http://bitly.com/LAC-Outreach-Calendar to track possible regional ICT and IG events where persons and/or possible ALSes from those territories are likely to attend.

- Conduct a survey of possible individuals and/or organisations that would be At-Large candidates in those countries without ALSes. Other ICANN stakeholders (GAC, ccNSO, Fellows) in territories without ALSes would also be identified and consulted.

- Once a sufficient number of individuals/groups are identified, attempts would be made to contact such individuals to invite them on a series of conference calls introducing them to DNS basics, ICANN and ICANN At-Large so that such individuals/groups can join At-Large.

- If there are no particular outreach events in a country without ALSes and no formal organisations that could be ALSes, but there are a sufficient number of individuals present, then efforts would be made to organise a F2F event to bring such individuals together. Funding would be sought by LACRALO. See https://community.icann.org/x/Aa7hAg for ideas for planning F2F events.

Questions:
How many are aware of ALAC after a single or multiple fellowships?
How many have been recruited into the ALAC as ALS?
How many have moved into leadership roles?
NextGen Program

- Open to all regions
- Analysis of NexGen
  - Age restricted 18 to 30 yrs old
- AFRALO-
- APRALO-
- EURALO-
- LACRALO -
- NARALO -

Overcoming Engagement Challenges
Overcoming Engagement Challenges

Some of the suggestions posted at [https://community.icann.org/display/atlarge/Ideas+for+Engagement+Strategies](https://community.icann.org/display/atlarge/Ideas+for+Engagement+Strategies):

- New At-Large Structures (ALSes) have no idea what they are getting themselves into. Potential ALS applicants should undergo an orientation programme (that could be an online training programme) BEFORE they finally submit their applications to become members.

  Orientation programme
  ○ should be clear about time commitments and expectations.
  ○ include one on one introduction to the tools.

- Asking non-participating ALSes why they no longer participate is a great idea. This shouldn’t be done via a form to fill out or email but one done with phone interviews or voice/video chat that will make it more personal and easier to get good responses.
Overcoming Engagement Challenges

Some of the suggestions posted at https://community.icann.org/display/atlarge/Ideas+for+Engagement+Strategies

Discussion:

What do you think are the key Engagement Challenges in your RALO, or in At-Large?
NARALO Engagement Challenge
NARALO Engagement Challenge

US territories in the South Pacific
- America Samoa
- Guam
- Northern Marianas Islands

Issues
- Not eligible for the Fellowship program
- Per capita income similar to neighbouring states
- One of the highest Internet rates in the world

Outreach
- Communication to civil society and government - No response
- Request for names to APRALO via Maureen - No response from contacts

Our suggestion due to location, time zone and cultural proximity, they should be treated as APRALO candidates.
No plans to outreach
