Meeting Notes

The WG continued the discussion on the Initial Public Comment Response Report and the IDN Implementation Guidelines.

1. **Edits from previous meeting** (Until and including RySG6): The WG discussed and generally accepted the updated responses as circulated. The response for CL1 and CL2 was discussed and it was agreed that revised text be put in to avoid the use of "authoritative records" and "non-authoritative records" in the guidelines. The text will be proposed and finalized over email.

2. **RySG7-RySG13**: The WG generally agreed on the proposed changes in the responses. It was discussed and agreed to remove "allocation and" in RySG9.

3. **Guideline Document:** The WG started review of the IDN Guidelines Document. An initial discussion started on Guideline 3, on whether it is in conflict with Guideline 5. The WG agreed to continue the discussion next week.

4. **Timeline for Public Comment Response Report:** The WG agreed to the Public Comment response via email for publication of the report on 11 September 2017.

5. **Timeline for IDN Implementation Guidelines**: The WG reviewed the status of the work and agreed to try to finalize the document no later than 15 October 2017 for publishing before by ICANN60.
