

stress test 18

Dear all,

I would like to express my objection to CCWG -Accountability Recommendations 11 on stress text 18. I make reservations in relation to the definition of consensus found in the following sentence: "Any Governmental Advisory Committee advice approved by a full Governmental Advisory Committee consensus, understood to mean the practice of adopting decisions by general agreement in the absence of any formal objection, may only be rejected by a vote of two-thirds of the Board, and the Governmental Advisory Committee and the ICANN Board will then try, in good faith and in a timely and efficient manner, to find a mutually acceptable solution".

Such a definition is to confuse consensus with unanimity. That amounts to the CCWG-Accountability to establish within the GAC universal veto.

My proposal : "Any Governmental Advisory Committee advice approved by a full Governmental Advisory Committee consensus, understood to mean the practice of adopting decisions by general agreement, may only be rejected by a vote of two-thirds of the Board, and the Governmental Advisory Committee and the ICANN Board will then try, in good faith and in a timely and efficient manner, to find a mutually acceptable solution".

Thanks
