

Status of IPC Comment on CCWG-Accountability Third Draft Proposal

The Intellectual Property Constituency of the GNSO is currently in the final stages of preparing its comments on the CCWG-Accountability Third Draft Proposal. However, given the truncated time period for consideration of this draft, the IPC was not able to complete these comments by the formal close of the comment period (in approximately 20 minutes).

The IPC expects to submit these comments within the next 48 hours or so, and wishes to put the CCWG on notice that these comments are forthcoming.

Respectfully submitted,

Gregory S. Shatan
President
Intellectual Property Constituency
