Bob Ochieng: (08:07) Please mte your mike if not speaking..thanks
Waudu Siganga: (08:08) apologies for late sign-in
alex: (08:18) sorry some issues with adobe connect .. Alex
alex: (08:21) is there audio problem ?
goma: (08:21) i can't not reach the french interpreter
Yaovi Atohoun: (08:21) @Alex: Please do you want a dial-out? Audio is fine
Alain Patrick AINA: (08:21) no, i can hear william
Yaovi Atohoun: (08:22) The default language in Adobe is English
alex: (08:22) thanks .. i check my settings
goma: (08:22) yes @Yaovi we can select french for translation
Yaovi Atohoun: (08:23) Please could you check in the mail sent to the list on Joining information? Please dial out and select the French Channel
Yaovi Atohoun: (08:24) My last post was for GOMA. Thanks
goma: (08:25) i trying one more
goma: (08:25) tks @yaovi

Yaovi Atohoun: (08:26) Please feel free to type your question in the room or by mail to queries.nairobiec@icann.org

Yaovi Atohoun: (08:28) Please you can raise your hand if you want to speak during Q/A session. Thanks

goma: (08:28) tks

Waudu Siganga: (08:30) I am not convinced about the recommendation regarding registration restrictions' some other studies (e.g. Nielsen) suggest otherwise

Alagie Ceesay: (08:31) hi Yaovi.. how can i have those slides?

goma serge- parfait: (08:31) using the 3R model should not be a recommendations because is depending on the size of marketin

goma serge- parfait: (08:32) i mean same market can just have 2 R

Yaovi Atohoun: (08:32) We'll post the slides online and share the link on AFRICANN mailing list

Alagie Ceesay: (08:32) thanks

Waudu Siganga: (08:32) also use of alternative DRMs instead of registration restrictions is a question mark to me, as the former is expensive and cumbersome

Wafa Dahmani: (08:32) @Alex AFTLD should set up this African DNS observatory

Yaovi Atohoun: (08:33) can you hear me?

William Stucke: (08:33) No

goma serge- parfait: (08:33) i d't reelly found a business model for africa

Alagie Ceesay: (08:33) no

Wafa Dahmani: (08:33) no

Wafa Dahmani: (08:33) yaovi

Wafa Dahmani: (08:33) we cant hear u

Wafa Dahmani: (08:33) yes

William Stucke: (08:33) Yes

Wafa Dahmani: (08:33) now it's ok

Idriss Marcial MONTHE: (08:33) Pouvons-nous avoir les slides de la présentation ?

goma serge- parfait: (08:34) i was expecting to to have a model for DNS industrie

goma serge- parfait: (08:34) ?????

Wafa Dahmani: (08:35) I dont agree with u serge about 3R model

Wafa Dahmani: (08:35) regardles our experience in Tunisia

Paulos: (08:35) I can confirm

Yaovi Atohoun: (08:35) @WAFa: you will speak next

Wafa Dahmani: (08:36) we changed 7 years ago to the 3R model

Paulos: (08:36) Malawi has actually moved completely to 3R model

Paulos: (08:36) and it is working very well

Wafa Dahmani: (08:36) ok yaovi

Bob Ochieng: (08:36) Please raise your hand in the room and you could get time to speak or comment..

Yaovi Atohoun: (08:37) We have in the Queue: 1) WAFa

Waudu Siganga: (08:37) no, dispute resoltion

amessinou kossi: (08:43) Quels sont les bons modèles de gestion de ccTLD ? Est-ce bien de conduire le processus de gestion d'un ccTLD sans l'implication de la communauté ?

Waudu Siganga: (08:44) I support the Observatory idea 100%. Good data is evrything

Paulos: (08:45) so, we need a solution to collecting good data on African cctlds

Wafa Dahmani: (08:46) I also support

goma: (08:47) pourquoi les autres cctld registry n'arrive pas a decoler ??

Edem: (08:47) I also support the African DNS Observatory

Paulos: (08:48) Fees for a domain need to be reflective of the ecosystem in the country

goma: (08:49) yes @paulos

Yaovi Atohoun: (08:49) @goma: les quels n'arrivent pas?

Paulos: (08:49) saying fees should be low really does not apply to many African countries where cost of Internet access is still high

Pascal Bekono: (08:49) @Paulos, I support that idea

goma: (08:49) les registry local

goma: (08:50) pourquoi les restry local (cctld) n'arrive pas a bien vendreou pourquoi le business de dns ne marche pas bien

Waudu Siganga: (08:52) I think Paulo refers to registration fees

Wafa Dahmani: (08:52) me too

Waudu Siganga: (08:53) I think what he means is that the cost of domain name fees are already low; the problem in cost is the access fees

Wafa Dahmani: (08:54) some countries are making cctlds expensive considering cctlds as fetish market

Wafa Dahmani: (08:54) the price of the domain name should be considered into a whole buisness modem

Wafa Dahmani: (08:54) model sorry

Paulos: (08:55) My final comment is that the study should address issues of sustainability of African ccTLDs

Mark Elkins: (08:56) I see no reason for a Registrant to ever pay more than US\$25 for a domain name.

Yaovi Atohoun: (08:56) Please post your comment on Public Comment page on ICANN website

Mark Elkins: (08:56) The average is currently much higher.

Isaac Maposa: (08:57) Thanks. Bye everyone.

Mouhamet Diop: (08:57) thanks

Yaovi Atohoun: (08:57) bye

Paulos: (08:57) bye
