

ALAC Ratification or CCWG Final WS1 Proposal

Scenario 1 - CCWG addresses all of ALAC Concerns raised in Public Comment Statement

Ratification should be quick and relatively painless.

Scenario 2 – CCWG leaves some of ALAC issues unresolved

We will require substantive discussion, first in IANA-Issues WG and then ALAC.

Scenario 3 – over and above current issues, something new arises during revision.

Will require careful monitoring in WP discussions to identify and raise red flags with IANA-Issues WG and ALAC.

Note: Presumption is that timetable will not be altered, if it is, ALAC plans may need to change quickly.
