Maryam Bakoshi: Dear all welcome to the NCSG CRM meeting 06 June 2016

Maryam Bakoshi: Welcome Joan

Maryam Bakoshi: Welcome Rafik

Joan Kerr: Hello Everyone

Sam Lanfranco: I am here...

Maryam Bakoshi: Welcome Sam

Maryam Bakoshi: Welcome Tapani

Sam Lanfranco: Yes

Sam Lanfranco: All, for the member in good standing issue raised in email, I would go for a "when last logged into member profile" date, say within the past 12 months.

Martin Peth: Hello and sorry for the delay...

Martin Peth: Can't hear me?

Martin Peth: ...again?

Maryam Bakoshi: Martin, please could I have your number?

Martin Peth: 0049 228 96104990

Maryam Bakoshi: Thank you

Sam Lanfranco: More on member in good standing test: I would suggest that "in good standing" would simply be a member login in the past X months (X=12?), with an email reminder before elections and a cutoff date (say two weeks before election) for member in good standing.

Maryam Bakoshi: Please hold on

Maryam Bakoshi: Tapani we need to start the recording...

Maryam Bakoshi: Please hold on

Tapani Tarvainen: What's this noise?

Tapani Tarvainen: OK, it stopped.

Tapani Tarvainen: Bad echo...

Joan Kerr: Question: Will trainign be available for updating the database on a regular basis

Sam Lanfranco: I have a comment!

Sam Lanfranco: @Joan - Do you mean updating member field information, or changing the fields within a user profile?

Joan Kerr: All

Sam Lanfranco: We would probably not need changing the fields within a user profile after the initial setup and testing period

Joan Kerr: Thank you

Sam Lanfranco: My own database skills started, and stopped, when dBase started with a blinking cursor on a VT100 green screen (-: !

Tapani Tarvainen: I can speak SQL almost natively :-)

Sam Lanfranco: A "lapsed member" is still fully functionally there, they just are not polled for purposes of voting

Joan Kerr: Yes, the voters' list is really important for the annual election

Sam Lanfranco: lost Martin's voice too

Maryam Bakoshi: Martin we have lost you

Joan Kerr: I can't hear Martin

Joan Kerr: ok

Joan Kerr: I will volunteer for NPOC

Tapani Tarvainen: Please mute your mics if not speaking!

Joan Kerr: Yes, we can work on that

Joan Kerr: As a excom

Rafik: https://book.civicrm.org/

Tapani Tarvainen: Documentation on git is definitely to my liking :-)

Rafik: i believe in svn :p

Joan Kerr: This is great. Bye

Rafik: bye

Sam Lanfranco: bye

Maryam Bakoshi: Good bye all
