

UA Tech WG Meeting

14 February 2022

Attendees

Satish Babu
Julien Bernard
Jim DeLahunt
Marc Datysgeld
Vadim Mikhaylov
Seda Akbulut

Agenda

1. Welcome and roll-call
2. Reviewing other items in the [T5 – UA challenges and survey \[docs.google.com\]](#)
3. AOB

Meeting Notes

Satish gave an overview of the agenda items. He asked Seda about the next session dates of ICANN73 prep week. Seda shared that its on 23rd February at 13:00 UTC.

Satish suggested going over the draft slide deck that will be presented at the ICANN73 prep week Community Update session. Members agreed. The group modified the presentation slide by slide. Satish asked Seda about the task of posting code snippets. Seda shared that it will be uploaded on the ICANN GitHub page as well as UASG.tech. Satish asked to add this work item in the presentation.

During discussion on “Remediation of 2,000 Websites”, Jim shared his understanding that the outreach program is being done for the very first time and it is a one-time interaction between the vendor and website. Seda shared that the follow up will be done by the vendor so there isn't just one time interaction, so they will send an outreach letter and then they will follow up with website owners based on the questions that they receive. Satish asked when the contract is ending. Seda shared that the general contract end time is the end of June 2022, but she will check it and update.

Next slide showed a graphical trend of “Remediation of Websites”, over the last four years. Satish asked about why the trend in 2021 shows regress instead of progress. Seda explained that the benchmark has also changed because almost double the number of websites were tested as compared to previous year. Satish shared that in that case the data should show progress and it should be factual. So, they discussed how it can be interpreted, and edited on the slide deck.

Satish asked Seda to finalize it and share the presentation with the people in the call only.

Next meeting: Monday 28 February 2022 UTC 1600-1700

Action items

No.	Action Item	Owner
1	Finalize the presentation and share with the people in the call	Seda
