

UA Technology WG Meeting

28 October 2019

Attendees

Abdalmonem Galila
Dennis Tan
Dessalegn Yehuala
Hazem Hezzah
Marc Blanchet
Mark Datysgeld
Pitinan Kooarmornpatana

Agenda

1. UA-Tech Presentation at ICANN66
2. AOB

Meeting Notes

UA-Tech Presentation at ICANN66

The chair faced technical difficulty to chair the meeting. It was agreed that Dennis took the meeting through the slides.

Comments on the slides:

1. Page 4 – Purpose: it should be mentioned clearly which are the relevant working groups.
2. Page 5 – Intended Outcomes: during presentation, remediation and training should be the focus.
3. Page 6 – Work Recently Published: it was suggested to put a note that this presentation is available on the schedule website so attendees can download and click on the links to open documents.
4. Page 7: a few key takeaways of the graphic should be added.
5. Page 9 Next Steps: each activity should be tagged with ID in the FY20 action plan. And if possible, the prioritization of the activities should be provided.

Action items

| No. | Action Item | Owner |
|-----|--|----------------------------|
| 1 | Coordinate with the chair to finalize the presentation and share with all members. | Pitinan Kooarmornpatana |
