

ALS Criteria – DT-C

- No change in current self-funding, largely individual led criteria
- Three contacts identified (and ongoing).
- Contacts do not need to be organization leaders, but application must have leadership knowledge and support.
- Contact must have ability to communicate with organization membership (linked to operational expectation to re-distribute information from Staff and RALO).
 - Methodology to be used described in application
- Minimum size not specified, but expected to be greater than just contacts and/or organization leadership (judgement call needed to decide if appropriate in individual case).
- Must explain intersection between interests of organization and ICANN.
- Have an online presence (web, Facebook). Should ICANN provide a basic one?
- Certify understanding of Commitments and Expectations

Operational Expectations – DT-E

Definite ALS Expectations

- Report annually on its leadership, membership, major activities and "linkages" with ICANN (ie why they are an ALS). To the extent practical, this reporting process will be streamlined and easy.
- Redistribute regular ICANN updates to its members (these updates will be created by staff but might be augmented by the RALO)
- Reference ICANN and At-Large prominently on its website (or Facebook or whatever), either on its home page, or on a secondary page which is obviously linked to the home page (such as a pointer for group memberships or affiliations).
- When specific issues are brought to the attention of ALSes, each ALS should evaluate whether they can contribute or not, and if they can ALS members should be involved.
- Respond to specific requests from the RALO as needed.

Possible At-Large-wide ALS Expectations

- Voting, but de-emphasized – should not be the major criteria for being “active”.
- Monthly RALO Teleconference participation (at some reasonable level, need to define participation: presence or activity)
- Grace period for ramping up involvement (1 year?)
- Some substantive participation (webinars, WGs, regional statements)?
 - Perhaps as a requirement for travel
- Define “inactive” status and implications

RALO Expectations

-

Staff Expectations

- Monthly “What’s Going On”
- Briefing documents on new activities of potential interest
- Tracking where expectations have metrics
