Minority Opinion

Dear Co-Chairs

I am Managing Director of Namibian Network Information Center (Pty) Ltd, the country code Top Level Domain ("ccTLD") Manager of .NA. I created .NA and have 24 years uninterrupted service and corresponding experience as the ccTLD Manager for .NA.

I am appointed by ICANN's country code Names Supporting Organization ("ccNSO") as a Member to the Cross Community Working Group on Enhancing ICANN Accountability ("CCWG Accountability").

The CCWG Accountability submits a "Final Proposal on Work Stream 1 Recommendations" ("Final Proposal") which in terms of its Charter must focus on

[...] mechanisms enhancing ICANN accountability that must be in place or committed to within the time frame of the IANA Stewardship Transition.

The Final Proposal does **not** do so.

Accordingly I do not agree with and hereby formally record my Objection to the Final Proposal:

1. I still have serious concerns regarding the proposed increase to the powers of Advisory Committees ("AC") and their proposed elevation to similar status and powers as Supporting Organizations ("SO").
2. The Final Proposal is entirely silent on accountability measures for ICANN relating to its dealing with ccTLD managers.
This omission is fatal.
3. I still have very strong concerns about the way the CCWG Accountability has dealt with ICANN's Accountability to Human Rights.

The Final Report must state, at a minimum, that:

Within its mission and in its operations, ICANN will respect fundamental human rights, inter alia the exercise of free expression, free flow of information, due process and the right to property.

is unacceptable.

4. The questions

- under what statutory powers this transfer will occur,
- what in fact it is that is transferred, and
- what is not transferred

remain unanswered.

And they **must** be answered in order for any transfer of the functions and/or the root zone to occur.

5. I have previously placed on record my observations regarding the legitimacy of the way in which the CCWG has conducted itself during its deliberations which has been, more often than not, in violation of its own Charter.

I renew my Objection against this exclusionary process¹.

6. The entire proposal has been cobbled together in extreme haste.

We (the representative Members of the CCWG) have been subjected to an arbitrary, self-imposed and entirely unrealistic timetable and deadline.

7. Regrettably, the Final Proposal bears the fruit of this extreme haste. It is overly complex, hard to understand even by many of members and participants of the CCWG Accountability themselves.

8. The **drastic** shortening of public comment periods is another example of the apparently intentional exclusivity of the process.

Even if the previous fatal flaws did not exist, this would, in itself, be fatal to the legitimacy of the CCWG process and the Final Proposal.

Fortunately the Final Proposal, if any, can still be subjected to a proper public comment period.

9. I submit that the Final Proposal simply adds additional layers of bureaucracy without achieving much, if anything.

10. The IANA transition involves novel and unsettled questions that may implicate the interests of a wide array of entities. This includes both the public and private sector and engages both domestic US and international interests.

¹I renew my Objection to the previous "Draft Recommendations" from 2015-06-03, the "Draft Proposal" from 2015-07-30 and the "Third Draft Proposal" from 2015-12-02 and incorporate them by reference herein.

The CCWG Accountability should be result driven and provide its considered views on the important issues presented by the transition in a more reasoned and full discussion instead of rushing to produce something to meet a self-imposed deadline for which there is simply no justification.

11. Repeatedly the NTIA found it necessary to advise, and did so in no uncertain terms, that the CCWG was not meeting the terms of reference set by the NTIA.

I submit that the Final Proposal still does not meet these.

In the presence of these Objections it follows that the proposal does not have Full Consensus and I submit these minority viewpoints to be added to the Final Proposal as required by the Charter.

I urge ccTLD Managers to reject this proposal and the NTIA not to accept it as is.
