In this role, I am the voice for the remote participants, ensuring that they are heard equally with those who are "in-room" participants. When submitting a question that you want me to read out loud on the mic, please provide your name and affiliation if you have one, start your sentence with <QUESTION> and end it with <QUESTION>. When submitting a comment that you want me to read out loud of the mic, once again provide your name and affiliation if you have one then start your sentence with a <COMMENT> and end it with <COMMENT>. Text outside these quotes will be considered as part of "chat" and will not be read out loud on the mic. Any questions or comments provided outside of the session time will not be read aloud.

Gisella Gruber: (11:22) Kaili Kan speaking

Sivasubramanian M: (11:25) For transcript purposes: the comment read out a moment ago: This is on the issue of content regulation that Dr Steve was talking about. Irrespective of the complexities, it may be necessary for ICANN to look at the issues surrounding content, not as a way of expanding the scope of ICANN Compliance, but by thinking along the lines of forming a multi stakeholder committee or a Community directorate, perhaps like a Spam Coalition, for the ICANN Community or the larger Internet Community to examine content. If ICANN completely shies away from content related issues, then Governments would start paying attention, that is not good for the Security and Stability of the DNS.

Gisella Gruber: (11:43) Chris Disspain speaking
