

Chat Transcript from ICANN Meeting 55

Milena Timur: (3/10/2016 11:45) Hello, my name is Milena Timur and I will be monitoring this chat room. In this role, I am the voice for the remote participants, ensuring that they are heard equally with those who are "in-room" participants. Please note that I will only be able to read your comment/question within the time set by the Chair of this session

Milena Timur: (11:45) The chat rooms are the virtual meetings' for everyone, in-room and remote. When submitting a question that you want me to read out loud on the mic, please start with a <QUESTION> and end with a "</QUESTION>". Text outside these quotes will be considered as part of "chat" and will not be read out loud on the mic

Milena Timur: (11:45) Please note that chat sessions are being archived and follow the ICANN Expected Standards of Behavior: <http://www.icann.org/en/news/in-focus/accountability/expected-standards>

Poncelet Ileleji: (12:02) Thanks for the Intro Milena

Milena Timur: (12:03) Hello everyone, we will be starting in a few short minutes

Milena Timur: (12:03) apologies for the delay

Adam Peake: (12:16) Klaus mentioned the World Bank definition of civil society, this link might be helpful:

Milena Timur: (12:16) Are there any remote participants that would like to make a comment or ask a question?

Farzaneh Badii: (12:17) I might later on. Thanks for asking

Maryam Bakoshi: (12:25) We are currently discussing "Enhancing engagement with Civil Society worldwide"

Maryam Bakoshi: (12:26) Please feel free to make a comment or ask a question.

Cheryl Langdon-Orr (CLO): (12:29) the importance of not just mentoring but peer support is very well worth noting YES

matthew shears: (12:29) absolutely

Maryam Bakoshi: (12:29) Rafik Dammak is currently speaking

matthew shears: (12:31) is there a transcript?

Milena Timur: (12:31) @Matthew Shears: yes Transcript will be provided

Poncelet Ileleji: (12:33) <Question>What role in terms of awareness do you think CS should focus on in terms of the DNS, especially as its a very broad area</Question>

matthew shears: (12:33) Good question

Milena Timur: (12:35) @Poncelet Ileleji: your question has been passed onto the Chair

matthew shears: (12:43) we should recall that ICANN is not the only organization doing DNS/Internet related outreach - ISOC, RIRs are others

Cheryl Langdon-Orr (CLO): (12:47) very true@matthew.. that of course may allow for some complementarity perhas

matthew shears: (12:50) Diplo is a great example

Poncelet Ileleji: (12:51) I concur @Matthew

Cheryl Langdon-Orr (CLO): (12:57) re the point on reserving space for the sector we are focusing on in fellowship programs etc., we need to remember to insert that suggestion with any future review of these ICANN Programs

matthew shears: (12:59) what is the relationship between this list and what is on the ICANNlearn? Can some of this be updated to that?

matthew shears: (12:59) *uploaded*

Poncelet Ileleji: (13:01) Thanks

Cheryl Langdon-Orr (CLO): (13:02) I think that using the content (or some of it ;-) to populate some ICANN Learn programs that could be either self uided material or actual 'corsework'

Cheryl Langdon-Orr (CLO): (13:06) I thought ICANN has recently secured the services of a librarian... Zerhaps we should seek some professional input in all this...

Daniel K. Nanghaka: (13:11) ICANN learn is great for new comers

matthew shears: (13:22) the challenge is not the material and data but its organization and ensuring its relevance and timeliness

matthew shears: (13:23) + 1 Cheryl

Daniel K. Nanghaka: (13:29) @Mathews, what would you recommend?

Milena Timur: (13:34) Thank you everyone for joining today's meeting
