# APAC Regional Plan (FY23)

# Thank you for the past 10 years!

- 10<sup>th</sup> anniversary of APAC Regional Office

# APAC Regional Plan – FY23 Highlights

---

- APAC Regional [Plan](#) reports to the ICANN Strategic [Plan](#) (2021-2025)
- Published APAC Regional Plan [Report](#) (FY23 i.e. July 2022-June 2023)
- Highlights:
  - **ICANN's technical projects** (KINDNS, DNS Security, DNSSEC etc)
    - Reached over 3000 stakeholders
  - **Stronger APAC community**
    - Renewed APAC Space
    - APAC GAC network
    - APAC DNS Forum
    - Asia Pacific Internet Governance Academy (APIGA)
    - 10 new APAC community leaders

## APAC Regional Plan – FY23 Highlights (II)

---

- New APAC leaders (appointed in FY23)
  - Chris Chapman, ICANN Board Member
  - Nicole Chan, ASO Address Council Vice Chair
  - Amrita Choudhury, APRALO Chair
  - Haixin Duan, UASG Vice Chair
  - Sebastian Ducos, GNSO Council Chair
  - Aris Ignacio, APRALO Vice Chair
  - Anil Kumar Jain, UASG Chair
  - Wang Lang, GAC Vice Chair
  - Sajid Rahman, ICANN Board Member
  - Nitin Walia, UASG Vice Chair

- Highlights:

- **Universal Acceptance**

- Local Initiatives in China, India and Thailand
- New Local Initiative established in Sri Lanka
- Inaugural UA Day: amongst others, activities generated 509 media articles in region

# Thank you

# ICANN Update on the Registration Data Request Service (RDRS)

Yuko Yokoyama  
Diana Middleton

APAC Space at ICANN78  
23 October 2023

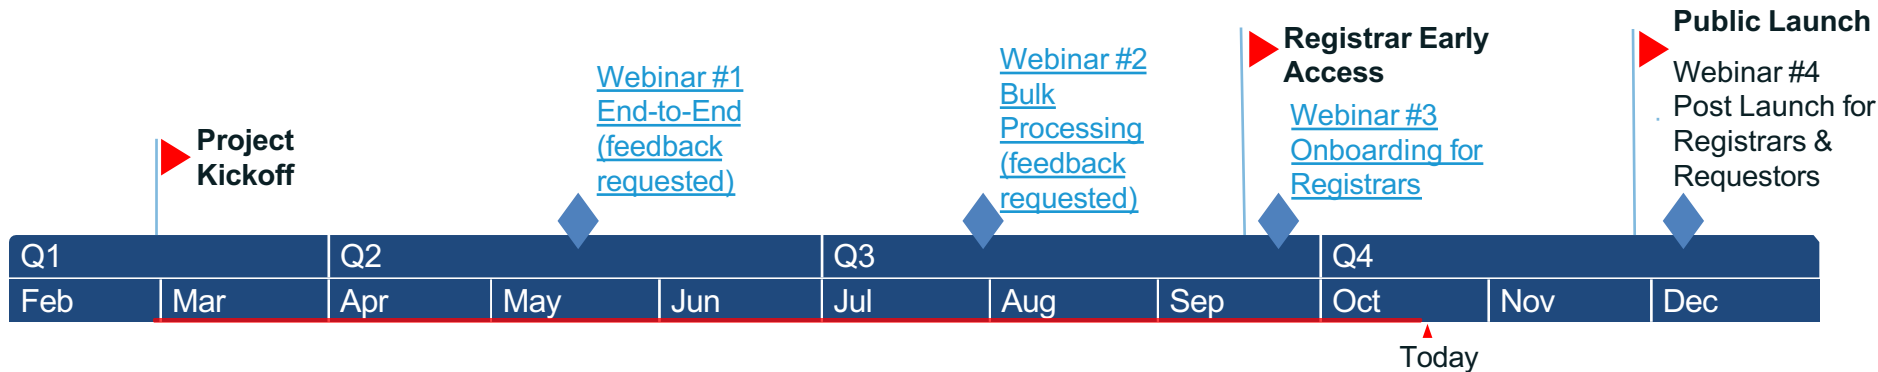

# Agenda

---

- High Level Timeline
- Benefits of RDRS
- How to Onboard
- How to How to Opt-in for PGP Encrypted Notifications
- Helpful links

# High Level Timeline

**Simple End-to-End**

(full process from start to finish)

**Bulk Processing**

(feature that allows user to apply one operation to several assignments or cases)

**Email Encryption**

(an authentication process that prevents messages from being read by an unintended or unauthorized individual)

# Benefits for Registrars

Use of one centralized platform to handle requests for both registrars and requestors.

Requestors will use one standardized form reducing the different ways requests can be received (calls, emails, web forms, etc.)

Especially helpful for registrars who do not have their own standardized process to handle nonpublic registration data requests.

Potential to reduce back-and-forth with requestors.

Registrars will manage requests through the already existing Naming Services portal (NSp).

No extra effort needed from registrars. The service will provide an improved and standardized process to deal with requests.

# Benefits for Requestors

## Cybersecurity | Government Officials | Intellectual Property Professionals | Law Enforcement Authorities

Potential to be a one-stop shop for nonpublic gTLD registration data requestors that will provide a more consistent/standardized way to request data.

Makes it easier and faster for requestors to find the right registrar for their domain name query as the service will do it automatically.

Only need to complete one standard form through one service instead of filling out various forms managed by different registrars.

One place to upload needed documentation like court orders, subpoenas, credentials, legal affidavits, etc.

Requestors can see pending and past requests in one place.

Can create new requests, use templates, and cancel requests.

# How to Onboard

# How to Onboard

- Opting In/Out of the RDRS Service
  - All current Naming Services portal (NSp) users for registrars will be provisioned for RDRS.

The screenshot shows the ICANN NSp portal interface. The top navigation bar includes links for 'CASES', 'COMPLIANCE TICKETS(OUTSIDE NSP)', 'IANA IDS' (highlighted with a red box), 'NEW REQUEST', 'TRANSFER DETAILS', and 'WHOIS'. A notification banner at the top states: 'NSp displays data based on the time zone set for your profile. Your current time zone is: (GMT-07:00) Pacific Daylight Time (America/Los\_Angeles). If this is incorrect, please update it on the 'My Info' page, [here](#).' The left sidebar contains a list of account types: 'Registry', 'Registrar' (selected and highlighted with a red box), 'CZDS', and 'RDRS'. Below the sidebar, the main content area displays 'Compliance Case Totals' for the 'ICANN Demo Group'. It features two tables: 'Cases By Action Type' and 'Open Cases By Status'.

Cases By Action Type:	
Open Cases - Portal User Action Required	0
Open Cases - ICANN Action Required	0
All Cases Updated Within Last 7 Days	0

Open Cases By Status:		
Suspension	0	Abuse
2nd Notice	0	Registr
1st Notice	0	Generi

Cancel Save

Checking this field will allow requestors to submit RDRS requests. Unchecking will remove the IANA from the participating registrars list, while leaving outstanding RDRS requests in the system

# How to Opt-in for PGP Encrypted Notifications

# How to Opt-in for PGP Encrypted Notifications

The screenshot displays the ICANN Account Management interface. At the top, a navigation bar includes links for 'CASES', 'COMPLIANCE TICKETS(OUTSIDE NSP)', 'IANA IDS', 'NEW REQUEST', 'TRANSFER DETAILS', and 'WHOIS'. Below this, the account name 'Test RR Group' is shown with an 'Update Account' button. The main content area is divided into 'ACCOUNTS' and 'DETAIL' sections. The 'DETAIL' section contains a search bar, 'Account Name' (Test RR Group), 'IGN Rr Group' (Test RR Group), 'Group Invoicing' (checkbox), 'Invoice Delivery Method' (Email Only), and 'PGP Enabled' (checkbox). A red box highlights the 'PGP Enabled' checkbox and the 'PGP Key' text area. An 'Update Account' modal is open in the foreground, also with a red box around the 'PGP Enabled' checkbox and the 'PGP Key' text area. The modal includes 'Account Name' (Test RR Group), 'Group Invoicing' (checkbox), 'Invoice Delivery Method' (Email Only), 'PGP Enabled' (checkbox), and a 'PGP Key' text area. At the bottom of the modal are 'Cancel' and 'Save' buttons.

# RDRS Notifications for Registrars

- **Daily Activity Report**

- ○ List of all requests received or canceled on the previous day (UTC) that require the registrar's review to process.

- **Monthly Aging Report**

- ○ Notification at the beginning of each month if there are RDRS requests that have been pending for more than 30 days.

- **Expedited Review Requests**

- ○ If requestor requested an “expedited review request,” registrars will receive notifications for submissions that have been marked as “expedited review request” as soon as it's submitted.

- **PGP Encrypted Notifications**

- ○ Registrars can opt-in to receive PGP encrypted messages for all RDRS requests submitted for any of the domains/IANA IDs they manage.

# Helpful Links

Registrars can opt-in to the service through the [Naming Services portal](#), where the following supporting materials will be available:

- [RDRS NSp User Guide for Registrars](#)
- [RDRS Frequently Asked Questions \(FAQs\) for Registrars](#)
- Instructional “How to” videos
  - [How to use the system](#)
  - [How to use bulk processing](#)

Further information on the RDRS, including general and background information, links to meetings and announcements, and related correspondence, can be found on the [RDRS webpage](#).
