Kaili Kan: Hi, everybody!

Megan Richards, European Commission: So long as the experts analyse the data ok for me

Megan Richards, European Commission: CENTR has data for European and a few other of its members

Alice Jansen: Please mute your line if not speaking - we are getting a lock of echo

Alice Jansen: lot*

Megan Richards, European Commission: exactly - a few representative samples might be sufficient to give an idea

Jonathan Zuck: Those might have been "choice" metrics

Megan Richards, European Commission: but the results of that analysis should be useful I suppose

Megan Richards, European Commission: we don't need to see the raw data !

Megan Richards, European Commission: stan you dropped off

Jordyn A Buchanan: I still hear Stan

Megan Richards, European Commission: right - sorry - realise now that I was being cut off by our internal administrator but back on now and had typed the message which then appeared later !

Jordyn A Buchanan: Ah, thanks for clarifying.

Megan Richards, European Commission: and no comment means consensus right?

Jordyn A Buchanan: Generally yes. :-)

Alice Jansen: Thanks for joining!

Jonathan Zuck: Thanks!

Pamela Smith: Thanks for participating, everyone.

Megan Richards, European Commission:thanks all

Pamela Smith:Enjoy your day.

Kaili Kan:Thanks, Bye!
