

## Adobe Connect Chat Transcript: Competition & Consumer Choice SubTeam Meeting #12 on 15 June 2016

Brenda Brewer: Good day all and welcome to the Competition & Consumer Choice SubTeam Meeting #12 on 15 June 2016! Please remember to mute your line when not speaking. Thank you!

Megan Richards: fine for me

Megan Richards: weren't we referring to the .tk example and similar?

Dejan Djukic: it would be useful to see that list.

Megan Richards: didn't CENTR provide some info?

Eleeza Agopian: @Megan, I don't think they've provided a data set just yet.

waudo siganga: Stan - a saw a link on email from Carlton (<http://dnpric.es/compare-registrars/>?) showing registrant prices for almost all TLDs and there are so called "promotional prices" on soe. Probably these p"promotional prices" emanate from registries and are shortlived, so maybe that needs to be factored into some of the calculations

waudo siganga: or at least noted

Megan Richards: sorry can't speak but also haven't had any time since Wahsington - sorry

Megan Richards: hope to be able to next week (towards end)

waudo siganga: there was a source for ccTLD data that was circulated - Nominet

Eleeza Agopian: @Wauda, that's what we're referring to, and the source for that map waws Zooknic

waudo siganga: noted

Megan Richards: can we meet briefly and unofficially in Hlesinki? so it doesn't clash greatly with other ICANN meetings ?

Megan Richards: thx all

Kaili Kan: bye
