

iGmena

Bringing voices together from the MENA region on Internet governance & policies

https://igmena.org | @ig_mena

- iGmena = Internet
 Governance in the
 Middle East and
 North Africa Region
- Launched in 2012
- A program by Hivos

The mission of iGmena is to safeguard Internet freedoms in the Middle East and North Africa, in part, but merging technology, policy, and advocacy.

The program aims to ensure that the freedom of thought and expression is protected online, and digital rights and access to information are codified in legislation and policy across the MENA region.
