ICANN Travel Services Program Updates

- ⦿ In an effort to improve Travel Services we conducted the following activities:
 - ⦿ Searched for a vendor with new solutions and different approaches to improve our travel program
 - ⦿ Focused on finding ways to make travel bookings a global and more efficient process
 - ⦿ Conducted the Request For Proposal process
 - ⦿ Invited many travel management companies to participate

What were we looking for in a Travel Provider?

Service Oriented

- Treats all travelers with personalized service
- Need a TMC that provides excellent education/engagement

Cost Conscious

- Need a TMC that is transparent in providing travel options
- Find a balance b/w Travel Policy vs. Personal Preference

Multiple Delivery Platforms

- Need a TMC with suitable tools that can match ICANN travelers' independent style (online, phone and email)
- TMC must provide service wherever ICANN is located to enable reaching stakeholders in languages and business hours of their region.

Why we Selected FCM

- ◉ We selected a vendor that will help make the ICANN travel program global while still providing personalized and white glove service/feel
- ◉ FCM is the right place for our travel needs
- ◉ FCM has a full range of services that will help us grow our travel program
