<b>5) Current position(s):</b>	Teacher, ICT Implementation in Education Specialist, Internet Policy Analyst
<b>6) Are you involved in any ICANN related working groups? If yes, which ones?</b>	GNSO RPM Working Group NCUC
<b>7) Why do you want to contribute to the new 2016–2019 MEAC Strategy Working Group?</b>	Integrating the new 2016-2019 MEAC Strategy Working Group as a member would make me an active participant in the Internet Ecosystem and have an impact in order to make reforms in Tunisia, in particular, and in the Middle East and Adjoining countries in general. As a teacher working under two ministries; that of Education and ICTs , and a Civil Society Activist working on Internet Policy Analysis with IGMENA, I have a great aspiration for making the Internet more accessible, affordable, secure and stable and I want to expose my students and young people I meet to global issues related to Internet Governance. I wish to shake the status-quo in the region and I know I can thanks to ICANN's multi-stakeholder, bottom-up strategy. I have restlessly championed reform so I believe I have the potential to be an active participant in this 2016-2019 MEAC Strategy working group and an effective Internet Policy leader and reformer back home.
