Naveed: COMMENT: Hi. I have two comments on the diagrams. 1) I don't see the actions exclusively contributing to the Objectives. This means that some of the actions might be contributing to more than one objectives. So, a careful review of this is required. I didn't get a chance to do this personally, but I can provide that in a few days. 2) I would suggest to keep the earlier version of the diagrams along with these simple forms if the two version are not conflicting, as the former version could help understand the details.
