| 7) Why do you want to contribute to the new 2016–2019 MEAC Strategy Working Group? | <p>On one hand, I am interested in Internet Governance in specifically the Middle East and the work of ICANN and hence the MEAC WG represents the intersection between these two domains. On the other hand, the bottom-up, multi-stakeholder model that the WG exemplifies is one of the few participatory models that deal with IG issues in the region. Therefore, I would like also to participate in the development of ICANN regional strategy in this regard. I believe I have experience in the internet ecosystem in the MENA region as well as in working with different stakeholders.</p> |
