Dear Samantha Eisner,

I have some comments on the Draft ICANN Bylaw.

Thanks the working team for their hard work to revise the Bylaw according to the CCWG-accountability Proposal and ICG Proposal. It would be better if there

be formal versions in different languages. Because the Bylaw is the fundamental

norm for ICANN, it is important to make convince for the whole community to give their feedback. A working group of Chinese community finished the translation from English to Chinese and shared the result. I was one of the volunteers and glad to do that for the Community. And I hope that ICANN provide

official Chinese and other versions as soon as possible and extend the comment

period or give second round comment period.

Then I think there are some clauses should be re-considered:

1.Section 1.2. COMMITMENTS AND CORE VALUES (a) COMMITMENTS

(iv) Employ open, transparent and bottom-up, multistakeholder policy development processes that are led by the private sector (including business stakeholders, civil society, the technical community, academia, and end users),

while duly taking into account the public policy advice of governments and public authorities.

It is not

appropriate<<http://cn.bing.com/dict/search?q=appropriate&FORM=BDVSP6&mkt=zh-cn>>

to use 'private sector' to include too many communities. It could be corrected.

2.Section 34.3. INDEPENDENT REVIEW OF BOARDCOVERED ICANN ACTIONS (j) Standing Panel

(iv) Reasonable efforts shall be taken to achieve cultural, linguistic, gender, and legal tradition diversity, and diversity by Geographic Region.

What is the 'Reasonable efforts'? The 'Diversity' should be fully supported.

3.How to safeguard 'IDN first' principle?

4.How to describe conflict of interest for IRP panelists and include this principle into the Bylaw?

5.GAC didn't get consensus on recommendation 11. Dose the Bylaw need to be ask for consensus recommendation?

6.Board member, EC member, NomCom member, AC/SO council member are all from the community. How to apply the conflict of interest.

7. Some wordings to Annex

Annex E

(1). Principles

f. .... by the EC that that triggered the need for the Caretaker ICANN Budget.

should be :

f. .... by the EC that triggered the need for the Caretaker ICANN Budget.

(2).Annex G-1

issues for which uniform or coordinated resolution is reasonably necessary to facilitate interoperability, security and/or stability of the Internet, registrar services, registry services, or the DNS;

should be :

issues for which uniform or coordinated resolution is reasonably necessary to facilitate interoperability, security and/or stability of the Internet or DNS, registrar services and registry services;

(3).Annex G-2

The topics, issues, policies, procedures and principles referenced in Section 1.1(a) (i) with respect to gTLD registries are:

issues for which uniform or coordinated resolution is reasonably necessary to facilitate interoperability, security and/or stability of the Internet or DNS;

should be :

issues for which uniform or coordinated resolution is reasonably necessary to facilitate interoperability, security and/or stability of the Internet or DNS, registrar services and registry services;

restrictions on cross-ownership of registry operators and registrars or resellers .....

should be :

restrictions on cross-ownership of registry operators and registrars or registrar resellers .....

8. ICANN address

It should not show the detail address and be replaced by [ICANN Address]. otherwise ICANN would revise the Bylaw when its change the place of Office.

Thank you very much.
