

**Reviewing the CEP
CCWG – Accountability
Work Stream 3**

Interviews conducted by Anna Loup and Edward Morris

Interview number

Board / Staff Community Member

Observations:

- “I survived the CEP”
- needs better notification requirements; didn’t know I was in one until it started
- case concerned merged claims, multiple parties
- Found CEP was good for stalling while waiting for other events that impact the claim external to the claim to take place
- Need to notify the world of the the parties who are in the CEP, not necessarily the topic of dispute
- Notification of any agreement made through a CEP should be made public
