CCWG Budget prepared with PCST support

After discussions with the CCWG it was agreed the assumptions should be revised as follows:

• Adobe room support and transcripts should be available for all sub-group calls.
• Staff support should be available for drafting of documents given the diversity of participants many of which do not have English as their mother tongue.
• Translation of final recommendations as per the final WS1 recommendations.
• Ensure travel support for CCWG members to all face to face meetings.

There were no objections to the assumption that legal fees could not be estimated at this point and that an amount should be made available to the CCWG to carry on its work. Any additional fees would have to be formally requested and approved.
There are 9 WS2 topics:

- Diversity
- Human Rights
- Jurisdiction
- SO/AC Accountability
- Ombudsman
- Transparency
- Staff Accountability
- Guidelines for standards of conduct presumed to be in good faith associated with exercising removal of individual ICANN Board Directors; and
- Reviewing the CEP (as set forth in Section 4.3)
WS2 Topics - Draft Staff Papers

Issue papers have been designed as a collection of existing information on each WS2 topic. These are ‘starter drafts’ for refinement by subgroups.

Issue papers are divided into three sections as follows:

- **Scope** – provides an extract from WS1 report
- **Community Discussion** – provides an outline of community discussion to date and/or questions that have been raised around the topic
- **Resources** – provides a list of references and best practices from which to develop the work

Issue papers are still being drafted, but Staff expects to deliver them to the subgroups as they kick off their work in or shortly after Helsinki.
