Marika Konings:we can go back to the transcript, but that will definitely create additional work

Marika Konings:we can note Helsinki session and people can add names if they recall who made the specific point?

Marika Konings:The only pre-Helsinki comments are those from Sylvia which we can also easily identify

Marika Konings:and email comments that came in after Helsinki meeting

Asha Hemrajani:yes

Olga Cavalli:+1 to Alan's comment

Olga Cavalli:lobbying differs as a concept from country to country
Samantha Eisner:@Asha, instances like that would be addressed when uniform principles that can be established and applied across organization
Samantha Eisner:It's the former
Samantha Eisner:Or more likely the former
Samantha Eisner:I recommend that the CCWG has the ability to address this more head on
Asha Hemrajani:@sam ok thanks
Asha Hemrajani:@jonathan that works for me, makes sense
Tony Harris:Me too
Alan Greenberg:It's not likely to be lost, but we may wish to highlight that this is a substantive area that the CCWG needs to address.

Asha Hemrajani:Marika, can you explain option 2 again
Olga Cavalli:remember that northern hemisphere is summer, not in the south :)
Marika Konings:Option 2 would foresee additional time being needed based on feedback from the ICANN SO/ACs in relation to the proposed charter
Marika Konings:this is already public as it is on a publicly archived mailing list :-)
Asha Hemrajani:would suggest more time buffer and regularly updating the schedule
Marika Konings:phew, I already started doubting my math skills!
