Interviews

2 ICANN meetings, 5 Regional meetings, 100+ F2F interviews

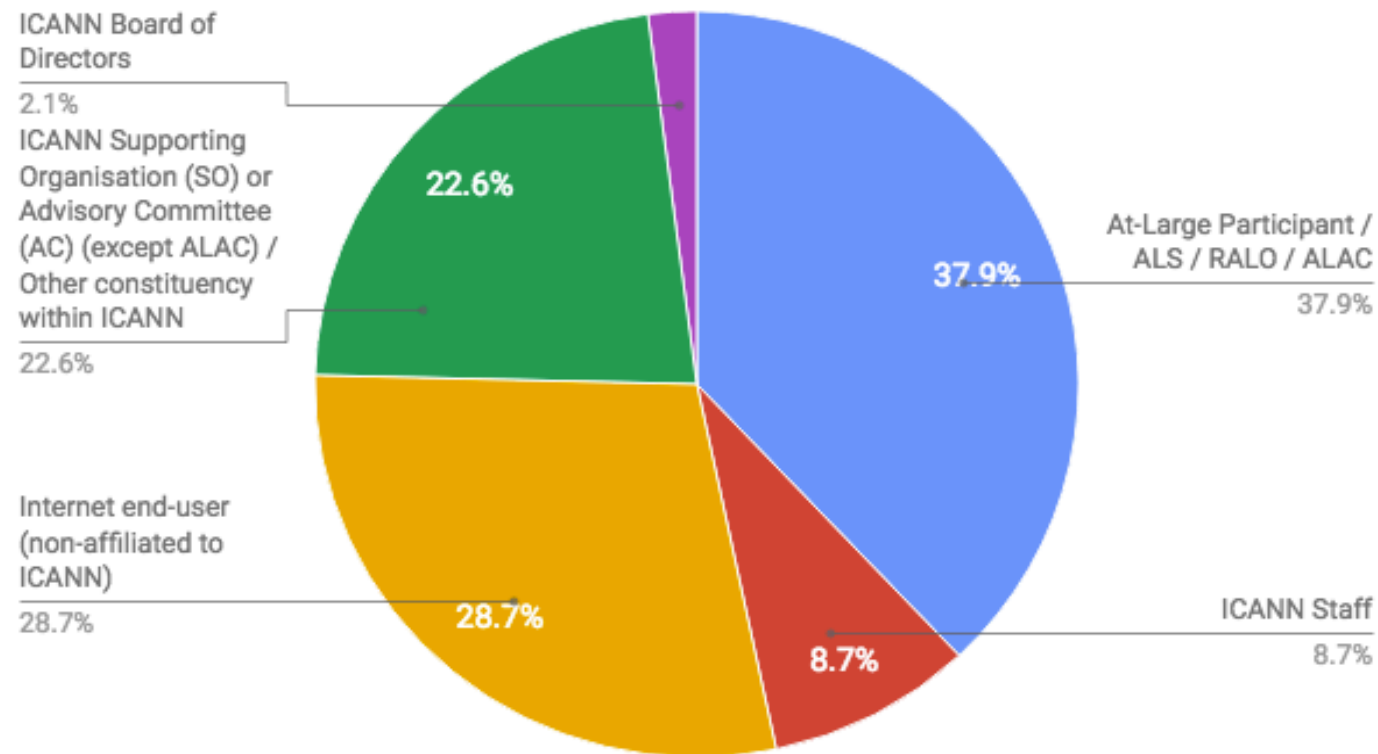

(ongoing) Global Survey

235+ responses, all global regions, multiple respondent categories

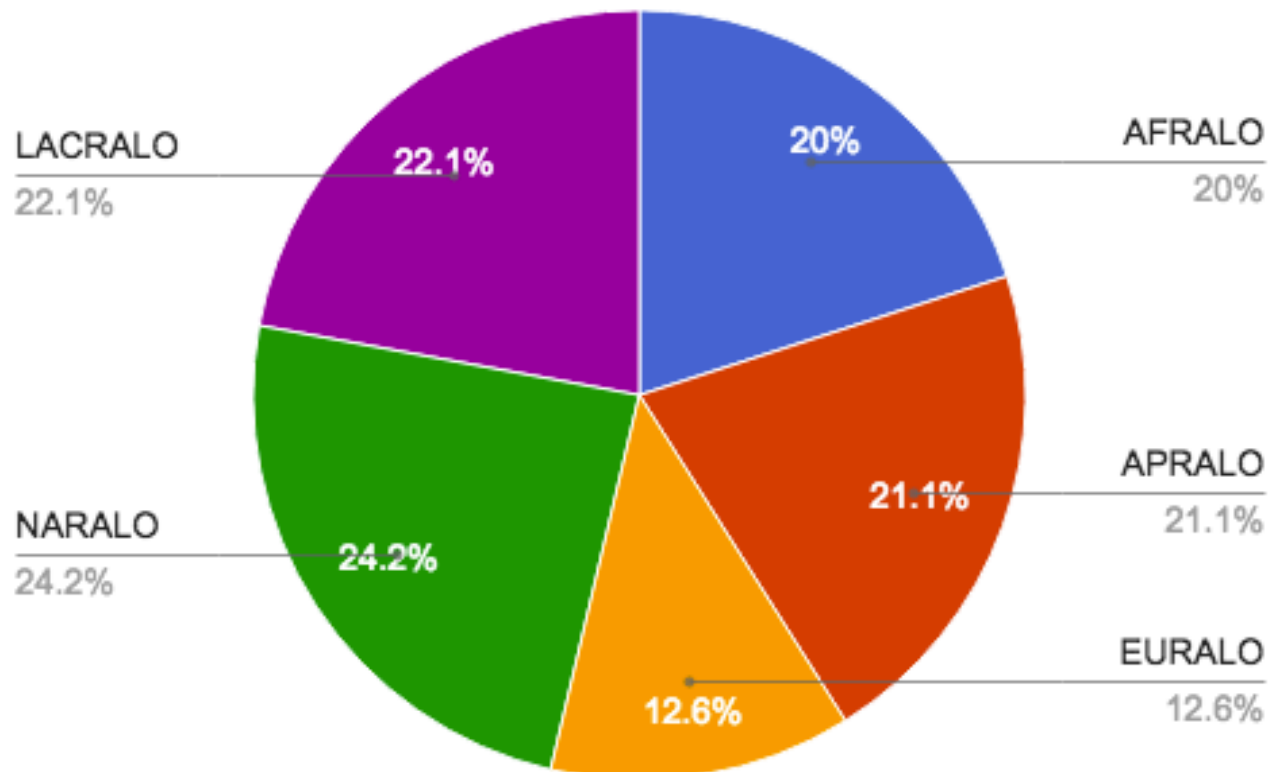

Connection with the ICANN At-Large Community

Global Survey

At-Large Respondents: even response rate from 5 global regions

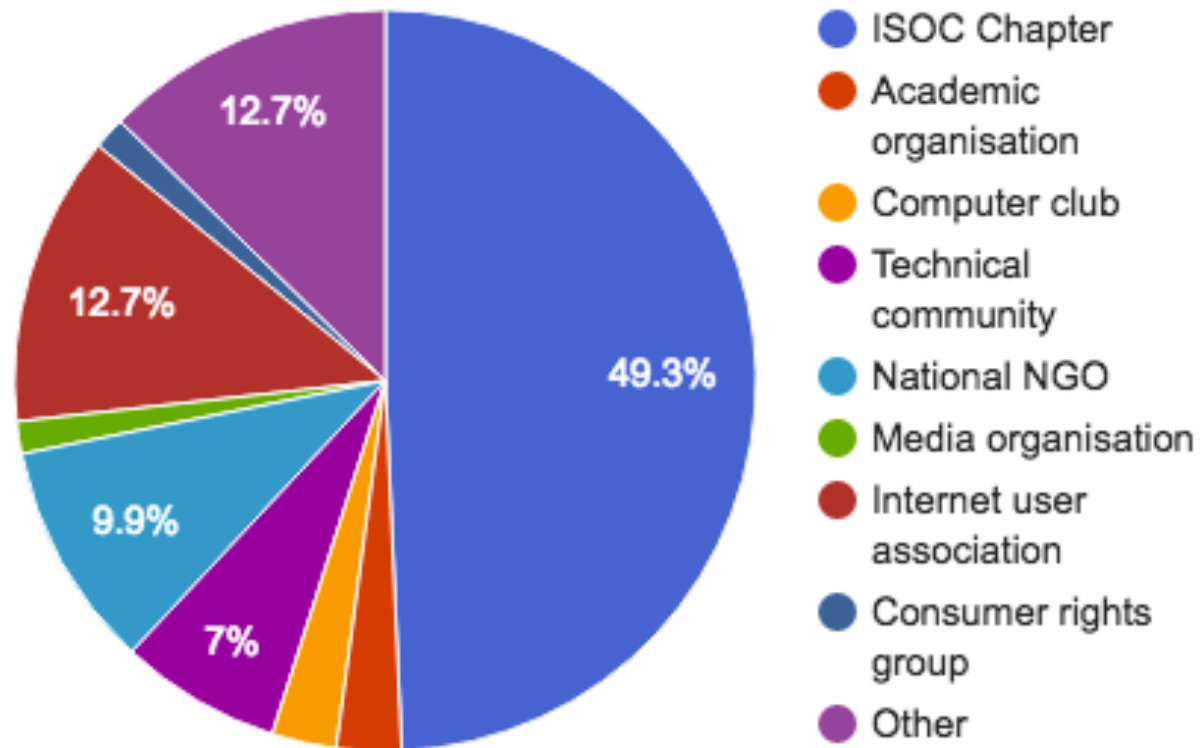

Connection of At-Large respondents with RALOs

Global Survey

At-Large Respondents: ALS type

Type of ALS

1) Mission & Purpose

No disagreement on the importance of the mission of At-Large. Needs to be defended

But many questions about the **Mandate & Accountability** of At-Large Leadership

Only **4.3%** of At-Large respondents think that the current population of ALSes really represents end-users

2) Relations of ALAC, At-Large and RALOs

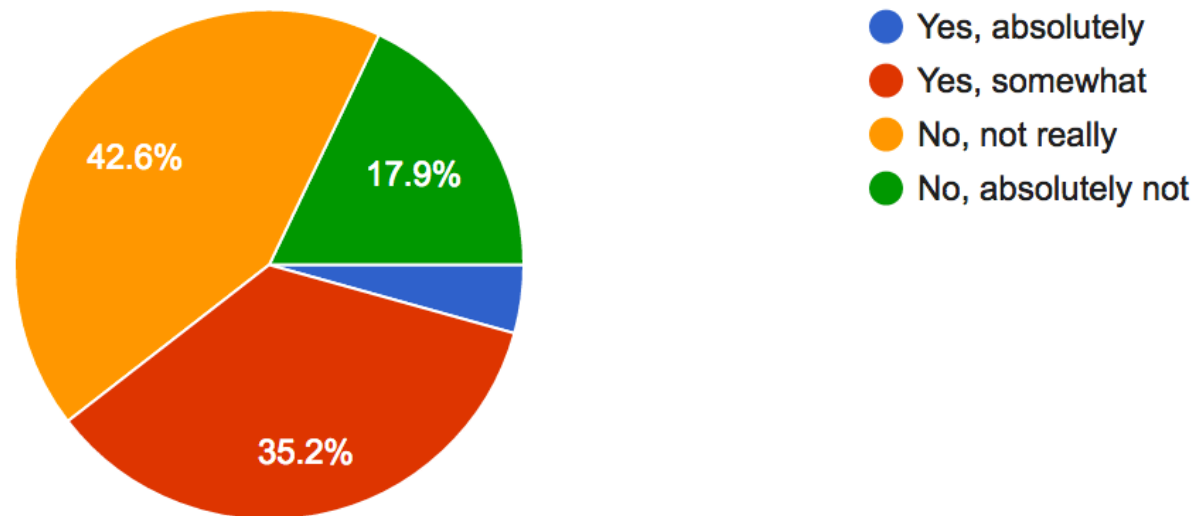

The At-Large Community has evolved: is it still fit for purpose?

- Membership issues – Who? How? What?
- Inconsistent criteria among RALOs for ALS recruitment. Need for more effective sharing of best practices
- Relative performance of ALSes
- Structural issues:
 - Static leadership, elections

2) Relations of ALAC, At-Large and RALOs

Is the current population of ALSes truly representative of global end-user opinion?

3) Relationships of ICANN/ALAC

Relative influence of At-Large within ICANN
multi-stakeholder system.

Is the balance right?

4) Outreach & Engagement

Many comments on the two-way function of At-Large as a mechanism for outreach (top down) and engagement (bottom up)

50% of survey of respondents have made written comments about outreach & engagement

Coordination among ICANN departments and AT-Large on outreach (who does what?)

Incentives for ALS membership / Communication mechanisms?

Quality vs quantity?

Review timeline

	Deliverable	Date	Status
a)	Work plan & timeline	30 May 2016	✓
b)	Interview plan, candidates & questions	23 May 2016	✓
c)	Survey plan + questionnaire + online tool	15 Jul 2016	✓
d)	Preliminary findings for discussion with RWP	3 Oct 2016	✓
e)	Draft report for RWP consideration	5 Dec 2016	
f)	Draft report for public comment	6 Jan 2017	
g)	Final report for discussion with RWP	15 Mar 2017	
h)	Final report issued and posted	14 Apr 2017	
i)	Presentation of final report Board OEC	20 Jun 2017	

Questions

What is on ALAC / At-Large current agenda that is relevant to our Review? (internal review process, ATLAS recommendations / ALS criteria)

Can you provide guidance regarding recommendations that might have implications for ICANN Bylaws?

Thank you:
