COMPETITION AND CONSUMER CHOICE MEETING 19

21 SEPTEMBER 2016

Pamela Smith: Welcome to Meeting 20 of the Competition and Consumer Choice Sub Team!

Megan Richards: I don't have a microphone but in principle don't need one : -)

Megan Richards: is Dejan not on? thought his paper was being presented ?

Jordyn A Buchanan: Yes, hopefully he'll be joining.

Jordyn A Buchanan: We'll give people one or two minutes to join before we dive in.

Pamela Smith: DONE!

Alice Jansen: Papers are posted on your page - <https://community.icann.org/pages/viewpage.action?pageId=58727390>

Megan Richards 2: sorry I keep losing connection but back on now

Megan Richards 2: like the new version !!

Pamela Smith: Yes, done

Alice Jansen: Stan, could you send your new version to the list please?

Alice Jansen: cctreview-competition@icann.org <cctreview-competition@icann.org>

Megan Richards: I also proposed separating out the non- trademark duplicates Jordyn. So

waudo: Is that last sentence of teh first para based on some data? what data?

Megan Richards: yes. cost was an important factor

waudo: the argument certainly makes sense. was just owndering about teh back-up dtata

Jonathan Zuck: blocking is also a new alternative to defensive registration

waudo: what ios blocking Jonathan?

Jonathan Zuck: hopefully we'll get data from INTA survey

Jonathan Zuck: a number of registries now offer domain blocking which is essentially a way to keep people from registering without registering yourself. Cheaper

Megan Richards: how does it work? limited per registrar isn't it?

Jonathan Zuck: yes. Voluntary

Jordyn A Buchanan: Here's a summary of what Donuts is doing: <http://www.donuts.domains/services/dpml/dpml-overview>

Jonathan Zuck: <http://www.donuts.domains/services/dpml/dpml-faqs>

Jordyn A Buchanan: We could possibly ask them how many people are paying for it.

Jonathan Zuck: ha. same link

Jonathan Zuck: and this from rightside

Jonathan Zuck: <http://rightside.co/registry/dpml/>

Pamela Smith: Dejan, I have unmuted you

Jonathan Zuck: these are "Big Shots" fyi

Jonathan Zuck: https://www.facebook.com/JVZPhoto/photos/?tab=album&album_id=914485975276392

waudo: @available@ means registered or not registered?

Eleeza Agopian: available = not registered

Jonathan Zuck: I think that's big actually

Jonathan Zuck: fewer

waudo: is there a way to tie this preference of registrars with preference by consumers?

waudo: for example it appear smost consumers prefere netflix.com to netflix.netflix

Megan Richards: my question is what the impact is

Megan Richards: I see Jordyn has said similar but better

Jonathan Zuck: suggestions from netsol:

Jonathan Zuck: cctreview.solutionsAdd to Cartcctreview.clubAdd to Cartcctreview.companyAdd to Cartcctreview.nycAdd to Cartcctreview.techAdd to Cartcctreview.globalAdd to Cartcctreview.websiteAdd to Cartcctreview.designAdd to Cartcctreview.technology

Megan Richards: is it useful to compare ccTLD policy with gTLD in this respect?

Megan Richards: thx

Megan Richards: right but Dejan may have access to some of that data no?

Megan Richards: maybe take top five closed ccTLD ? but not if too complicated

Megan Richards: makes a nice footnote at least : -)

Dejan Djukic 2: that is true:)

Pamela Smith: Waudu appears to have dropped off.

Dejan Djukic 2: I'm not sure for next week, I'm in Poland on CENTR meeting.

Eleeza Agopian: ok

Kaili Kan: Thanks. Bye!

Dejan Djukic 2: thank you

Megan Richards: bye

Jordyn A Buchanan: I logged off.

Jordyn A Buchanan: But sure!

Pamela Smith: Thank you for joining, everyone!
